My *Outline of Proofs and Arguments* gives a general overview of the audio visual presentations which are about 24 hours of total viewing time. I have many more hours of presentations available for download online because I realize my allegations are very difficult to believe. In short I have survived attempted homicides of unusual nature and am suffering from graft v. host from an incompatible blood transfusion in horrible pain and fatigue with digestive issues. Organic yoghurt, honey, green tea, organic veggies and small amounts of quality proteins of organic beef, chicken, fish, and high quality organic soups are the foods that have the least amount of discomfort now to my digestive system.

I mention this because I am seeking competent medical care in the form of transfusion therapy and these practitioners must know I am requesting O positive blood only from a single individual; most compatible donor, with no genetic maladies or illnesses of any kind. I am also seeking for legal representation to preserve my living will and to represent me in civil remedies against the criminals that have put me in this state of horrible agony and short of miracles and the best medical care a tortuous demise. I am also seeking prosecution against the criminals that placed me in this state for public safety.

I know you might be asking what could any of this mean to you and your loved ones. The only way you will know is if you watch ALL of the presentations no matter how controversial my claims, no matter your beliefs, and no matter how pressed you are for time. I don't want to sound arrogant, but the hours you spend watching and listening I believe one day you will look back as some of the most valuable time spent in your whole life. I would not trouble you and request for your own personal safety to watch and listen if I was not firmly persuaded it could save you and your loved ones from death or fates worse than death.

I give any who will permission to burn copies of the DVD or upload this information to any website to share with anyone you will the contents of the material on this DVD.

For your safety and quality of life I have fought off my death bed to make these events known to you.

Respectfully:
