The Fourth Dimension - Mapping Time and Space

Origin/Beginning Point 0 and with respect to time and space 0,0,0,0 exists within the center of the first spinning tetrahedron/sphere it occupies

The origin of Time and Space is the origin of all matter in the Universe. All matter is constantly moving through Time and Space/The 4th Dimension. If we want to discuss what exists in the 3rd instance of time we would be discussing everthing within the green sphere and so on with each pasing increment of time more space is defined. So when the Creator brought everything into existence Time and Space had its origin at that instance. All matter was a superheated enormous mass in the Beginning and was set in motion spinning by the Creator. As He spun the superheated mass; molten liquids gases and solids flung outwardly from the origin into the 4th Dimension/Time and Space. So my friends not only is Space/Time Travel possible but everything in the universe is doing just that constantly. The Creator alone occupies all of the 4th dimension which is his House at once. So He experiences all of it past, present and future at once and tells us of the so called future in the form of prophecy. This is what the meaning is of the scripture Ecclesiastes 3:15 and is why the Holy bible always has been and always will be inerrant in prophecy.

Time is non-linear because it emanates in all directions from the origin

One point = 1st dimension Two points/line = 2nd dimension Three points/triangle = 3rd dimension Four points/Tetrahedron = 4th dimension; specifically a spinning tetrahedron that occupies a sphere with radian equal to a instance of time. Interlocking spinning tetrahedrons map all Time and Space thusly.

Time cannot be affected by gravity or any kind of matter or energy. (Einstein's Theory is simply wrong: <https://www.facebook.com/notes/michael-swenson/too-many-are-turning-science-into-a-religion/711197568959205>, <https://www.facebook.com/notes/michael-swenson/gravity/710872032325092>, <https://www.facebook.com/notes/michael-swenson/theory-of-everything/713158368763125>, <https://www.facebook.com/notes/michael-swenson/emc2-is-rubbish/485479484864349>) Gravity affects mass no matter how small, and that is what all the observations have shown; but it does NOT affect time. No energy or matter can affect time; because time is a DESIGNATED increment of our choosing. Time is nothing more than an imagined concept, it is NOT tangible, the tangible has no effect or affect whatsoever on an INTANGIBLE, DESIGNATED concept like time; never has and never will. (*yes, I am aware it should read "an instance of time." Take it up with adobe; the software company that unilaterally decided they would no longer give me an authorization code for very expensive software I purchased from them; just because they wanted to force me to buy their newer versions; or I would have corrected it.)

I have been saying as much since first grade when we were shown an animated film strip of an astronaut that went into outer space while his brother stayed back on earth and then showed because he did so he came back barely aged while his brother was an old man. I knew it was rubbish the first moment I saw it as a little kid and I will tell the world plainly WHY it is rubbish. Gravity might affect an instrument set to measure time! Gravity might affect even photons zipping past; or the flow of electrons, or ANYTHING tangible; anything with mass NO MATTER HOW SMALL; but it does not affect TIME; because TIME has NO MASS; it is nothing more than an INTANGIBLE, DESIGNATED concept of imagination! Likewise, mass NEEDS ENERGY to exist but ENERGY does NOT NEED mass to exist! (Einstein's Theory and Equation is totally bogus in every way! 1) mass and energy cannot be equivocated in any way; they are most definitely NOT equal terms 2) the maximum velocity of mass is not the designated c^2 as has been shown in numerous examples cited in my notes; "quantum" physics has blown that fiction away many times over 3) TIME has nothing to do with forms of energy and mass (thought to be "natural"))

So let me tell you what I do know about Space and Time. I know only what our Creator has shown me; the rest of my knowledge may be faulty because it is based on the observations of mankind and what I have read of those observations.

<https://youtu.be/lktmmd7YnD8?t=1394> - Reality is not just Supernatural in Origin; it is Supernatural in Essence. It therefore behooves every man, woman and child to KNOW and LEARN from our Eternal Creator! (<http://biblehub.com/colossians/1-16.htm> The Supremacy of Christ¹⁵He is the image of the invisible God, the firstborn of all creation.¹⁶For by Him all things were created, both in the heavens and on earth, visible and invisible, whether thrones or dominions or rulers or authorities-- all things have been created through Him and for Him.¹⁷He is before all things, and in Him all things hold together.... and Jesus Promises the Holy Spirit...²⁵"These things I have spoken to you while abiding with you. ²⁶"But the Helper, the Holy Spirit, whom the Father will send in My name, He will teach you all things, and bring to your remembrance all that I said to you. <http://biblehub.com/john/14-26.htm> and ³⁸Peter said to them, "Repent, and each of you be baptized in the name of Jesus Christ for the forgiveness of your sins; and you will receive the gift of the Holy Spirit.³⁹"For the promise is for you and your children and for all who are far off, as many as the Lord our God will call to Himself. "... <http://biblehub.com/acts/2-38.htm>)

For example, recently, observations of matter and energy in the Space Time Continuum, Fourth Dimension (not to be confused with the fourth spatial dimension, or the virtually infinite spatial dimensions one might imagine in the universe), Universe, the House of GOD, has caused some to proclaim "the expansion of the universe is accelerating"!

<http://www.scientificamerican.com/article/the-2011-nobel-prize-in-prize-physics/> This proclamation astonished scientists the world over because it has long been thought that the universe; primarily due to

entropy, was slowing down, cooling off; reaching a state of rather motionless equilibrium. (The visible universe is in fact doing that; despite this recent proclamation otherwise). Let me explain.

<https://www.youtube.com/watch?v= 0mdH8NtJXE> - note motions of spinning and wobbling spheres are commonplace not only in our solar system and galaxy but throughout the universe.

<https://www.youtube.com/watch?v= nqrdy1QK2A> - note properties of fluid dynamics also common throughout the universe.

https://www.youtube.com/watch?v=oauDylu_swM - notice one source of energy, one velocity actually generates multiple velocities depending on the distance one is from the origin of any circle or sphere. (A sphere can be rotating at a certain velocity but the distance one traverses at the surface is much further than the distance traversed close to the center or origin.) SO IT ONLY APPEARS TO HAVE GREATER VELOCITY/DISTANCE TRAVERSED THE FURTHER AWAY FROM THE CENTER OF ANY ROTATING CIRCLE OR SPHERE ONE MEASURES OR OBSERVES. (gear, circle, sphere close to the center looks like it is moving slowly, while the velocity of the outer rim appears to be moving quite rapidly EVEN THOUGH the circle has ONE COMMON rotating velocity generating the motion of the whole) This is true for planets, suns, stars, atoms, solar systems, galaxies, AND YES; EVEN OUR universe! (objects at the outer regions of spiral galaxies traverse greater distances and so APPEAR to be moving more rapidly than objects near the galactic center or origin, BUT a radius from the center of our earth, or the galactic origin on a computerized model of any rotating sphere would show WHY such an illusion is perceived AND it is the SAME reason for the misinterpreted observations of deep space. (The rate of expansion of the universe is not accelerating at all; merely the further one looks into deep space, the more rapidly matter appears to be moving for the very same reasons a small gear moves a big tire so rapidly at the outer rim; even though the inner gear appears to be moving so slowly). Objects observed in space that are further from the origin of the universe, GENERALLY speaking, will appear to be moving more rapidly (give the ILLUSION of accelerated expansion), objects closer to the origin, GENERALLY speaking, will appear to be moving more slowly; just like objects in our galaxy.

<http://www.qrg.northwestern.edu/projects/vss/docs/space-environment/3-orbital-lengths-distances.html> - examine the data of our own solar system.

http://en.wikipedia.org/wiki/Solar_rotation Mercury traverses less than half the distance of earth in about a quarter of the time earth takes to make a revolution around the sun, Venus about two-thirds the distance in just a small percentage less than two thirds the time (still moving faster around the sun with respect to the earth), Mars travels about one and half times the distance of earth around the sun but takes almost twice as long, Jupiter about 5 times the distance but now taking almost 12 times as

long, Saturn almost 10 times the distance but taking almost 30 times as long, and so on. When we compare distances and velocities traveled to objects with known gravitational influence like our sun; it would appear that the greater the distance the less that gravitational influence affects the velocities of objects orbiting it. In other words, while a bicycle tire has rigid connection between the center of the wheel and the outer rim; there is only tenuous connection of objects in space (operating more like slip gears in a modern transmission that engage due to pressure and proximity; than a rigid bicycle tire) but nonetheless the analogy is observable that the laws of motion in objects close or far away are still governed by them. Such that due to centripetal force and the conservation of momentum objects at the outer reaches of the universe would appear to be approaching the more rapid velocity of the initial velocity our Creator put it in motion to begin with; while matter closer to the origin would be moving more slowly (in general) and notwithstanding galactic, stellar, planetary collisions and/or explosions and the effects of gravity over time. <https://www.youtube.com/watch?v=lkWyM-M8o0c>

Thus our solar system properly demonstrates the common laws of motion, entropy, and various forms of energy contributing to entropy. (ROTATING, REVOLVING, SPINNING, masses had at one time a higher initial velocity that is slowing down due to these factors) IF the dream I had of HOW the LORD COULD POSSIBLY CREATE a NEW Heavens and earth (new universe) was HOW He made THIS present one, THEN velocities of matter at the outer portions of the universe would be CLOSER to the INITIAL outer velocity with which He set it all in motion (only APPEAR to be "accelerating expansion") while matter CLOSER to the origin of universal mass (galaxies closer together in large numbers) would all be moving more slowly NOT just due to the initial slower velocity due to proximity to the origin of universal mass; but due to all the contributing factors and properties of forms of energy and matter that leads to entropy.

http://hubblesite.org/gallery/album/exotic/black_hole/- <https://www.facebook.com/notes/michael-swenson/too-many-are-turning-science-into-a-religion/711197568959205> I have watched documentaries on Hubble, looked at thousands of images, and as astronomers refer to these images, I ask myself if we are seeing the same thing based on their comments. For example, I have NEVER seen a black hole, and every image they refer to for one, usually has massive bright light, which looks to me like massive burning matter (the OPPOSITE of a black hole by any standard definition). In addition, <http://chemed.chem.purdue.edu/genchem/topicreview/bp/ch4/properties2.html> modern physics seems to like to redefine their definitions constantly, depending on which "scientist" one is conversing with. If gases come from liquids and solids; then why do astronomers point to gaseous formations in space and say they are seeing the birth of stars or solar systems or galaxies? In common laws of physics gases COME FROM liquids and solids; but in astronomy gases suddenly form liquids and solids (and based on my research, most of modern physics is full of such contradictions because people desperately want to APPEAR like they know what they're talking about; rather than sticking with solid facts).

Properties of gases are properties of gases whether in large or small quantities. Based on my understanding of gases; in order for them to be visible (especially at the distances in the universe we are observing them), light, electricity, heat must be present (they are burning, or sufficient light is illuminating the region). And IF a formation APPEARS to be gaseous at great distances, how do we not know that it isn't actually relatively small quantities of liquids and solids that are burning more like a galactic mist, than gas. And I said it in my note on gravity, astronomers want to say gravity causes the formation of stars; CLAIMING energy exists PRIOR to mass or is the CAUSE of accumulating visible mass together in order to start the fusion process of what gravity formed; but gravity is a property related to mass. (which is why the misnomer "black hole", I consider to be preposterous; as every standard definition would imply both the absence of matter and light and yet every image astronomers use to CLAIM there is a "black hole" in fact shows the OPPOSITE; lots of MASS and lots of LIGHT - which makes it look like to me as if these people are lost in delusions; rather than science.)

If they are claiming these gaseous formations are actually liquids and solids that we can see due to the presence of electricity, heat or other forms of energy acting upon the gases, it would then follow that the gases would NOT be solidifying to form stars at all; but rather would be consuming/dissipating in the process of giving off visibility in the first place. (Every image I have ever seen; even series of images, for those claiming the "birth" of stars, simply show stars or stars either behind gaseous formations, or in front of gaseous formations, or within gaseous formations. I have yet to see any series where it actually shows that previously there were no visible stars, and then there was and then the star started growing in size and brightness due to gravity and fusion like they drone on about. (These people are talking like these things have been observed over time factually, and I am saying before the whole world SHOW ME!)

And the reason for my skepticism is such claims by astronomers violate the very fundamental properties of liquids, solids and gases. If mass is directly related with gravity, then the absence of mass "black hole" cannot be a gravitational force at all. (YES, I am well aware of the CLAIM that at the center of the fictional black hole (I say fictional, because I HAVE NEVER SEEN ONE IN THOUSANDS OF HUBBLE IMAGES, let alone in the ones that are categorized as black holes!) but that their CLAIMS are the black hole is really a mass, that is super dense, not emitting light, but so dense it is attracting light.) I just want to say BOGUS!; the moment any star or mass that was previously burning, would become SO POWERFUL that it attracts not just large mass/matter to itself; but even LIGHT; is the very moment you would find them claiming they are seeing the birth of stars and or galaxies! If they are trying to say this density is SO EXTREMELY GRAVITATIONALLY POWERFUL that it actually compresses even billions of stars and all the respective energy into a solid mass, even a small solid mass; we would SEE EVIDENCE of objects in space sucking up whole galaxies. We would observe something like giant space vacuums that suck up all matter and energy; being drawn into actual dark abysses, but we don't! Instead all galaxies that we have observed (can be seen); are MOST OBVIOUSLY emitting light and other forms of energy and mass; radiating, spewing off, throwing off, exploding off particles large and small into space! (In

other words, black holes are imaginary; except as defined and Created by GOD; known as the bottomless pit or abyss -<http://biblehub.com/revelation/17-8.htm>). Essentially, a supposed black hole WOULD NEVER be an actual black hole, because mass; burning mass at that, stars, planets, heat, electricity, light, would all be gathered together by such dense mass and that dense mass would not be a hole at all but rather simply the core of a star or galaxy. AND IF that was the CAUSE of such accumulation; that galaxy would have no reason to be spinning, revolving, rotating, UNLESS the core dense mass was doing so to begin with or the objects it was attracting were impacting it in such a way as to cause the total mass to start spinning (like if we kick a ball on one side or another; BUT if many people all kick that same ball at once from all around it, it doesn't spin at all; rather, the forces of the vectors cancel one another and it stops spinning if it was previously (gravity; especially, gravity on the scale of the imaginary "black holes", would NOT start a star, planet or galaxy spinning at all)). **The laws of motion that I have observed tells me THERE WAS AN OUTSIDE CAUSE that set mass in motion; and it had to be a cause greater in scope than all the mass and energy in the universe combined.** Go ahead! DROP many different objects on earth and see if gravity ever causes those dropped objects to start spinning all on their own! So why would gravity in a galactic core or star be any different? There might be some materials at the axis that might actually be susceptible to the rotation of our earth and the gravitational fields or electromagnetic fields (like we have observed concerning some galaxies; the ones falsely being presented as evidence for the fictional black holes), but GENERALLY gravity pulls objects to itself from all directions in straight vectors. The fields are only moving because the mass is moving, and a relatively stable mass (not spinning; such naturally occurring objects in space are generally such due to explosions and collisions, and in sufficient time, entropy) STILL has gravity; so gravity CANNOT be the cause of all the spinning mass in the universe.

I know what I have seen and at least in my own thinking the data supports this model better than any I have heard or read about from others.

<https://www.youtube.com/watch?v=ri3R6vFVfEg>

Now an explosion that causes masses to collide (that are solids, as the burning and non burning liquids that collide in space tend to adhere and become a larger spherical shaped mass) can cause objects in space to change trajectories, vectors, and even tumble and spin; again just like a single kick of any ball can demonstrate or even multiple kicks at different times of impact. BUT that is not how gravity works; especially in a quantity of scattered sizes and densities of matter. The larger the quantity of matter, the more dense the mass; the more that dense object, due to gravity, exerts influence on all other objects of matter/mass nearby; such that it would draw such objects from all vectors around it directly to it (gravity in a large field of mass and matter causes the simultaneous kicks from all directions upon itself which would create a rather stationary object that was attracting to itself nearby mass and matter in equally straight vectors toward itself.) SO IF AN EXPLOSION or EXPLOSIONS was what set everything

spinning, it would NOT have such uniformity of motion in general throughout entire galaxies, solar systems and indeed throughout our universe.

Nor is what we know of the greater or lesser force, quantum mechanics, quantum theory, suddenly the savior of all the modern day fiction in the name of science; from sub-atomic (quantum), chemical, stellar on through cosmic evolution. IT IS ALL OR VIRTUALLY ALL TOTAL RUBBISH; BECAUSE ALL THESE PEOPLE ARE DESPERARELY TRYING TO LEAVE TRUTH (GOD) OUT OF THE EQUATION; when I am showing the world in laymen's terms why it is foolish to do so. Because then just about everything you THINK you KNOW is nothing more than fairy tales, imaginations, and in my opinion, what passes for science these days isn't even clever science fiction; but rather childish imaginations; easily refuted, and that are damnable heresies leading mass millions away from KNOWING our CREATOR and LEARNING FROM HIM directly! True Science will ALWAYS lead to knowing HIM who is TRUTH! <http://biblehub.com/john/14-6.htm> There is NO "natural" explanation for what we observe ubiquitously about our universe; about reality, BECAUSE the ENTIRE UNIVERSE is not only SUPERNATURAL IN ORIGIN; IT IS SUPERNATURAL IN ESSENCE!

<https://www.facebook.com/notes/michael-swenson/fathers-of-the-sciences-and-great-scientific-minds-in-their-own-words/567609163318047>

<https://youtu.be/CtJ8Jma5cM> - <http://biblehub.com/john/8-24.htm> the ENTIRE HOLY BIBLE testifies of YAHOSHUAH <http://biblehub.com/john/5-39.htm>, all the Prophets testify of YAHOSHUAH <http://biblehub.com/luke/24-27.htm> and <https://www.facebook.com/notes/michael-swenson/christ-is-the-fulfillment-of-the-law-torah-and-prophets/579365918809038> ALL CREATION AND THE STARS TESTIFIES OF YAHOSHUAH <https://www.youtube.com/watch?v=BJ6szvfApNM>, the NAMES of the first men on earth testify of YAHOSHUAH <http://www.bible-codes.org/images/Slide1-names-bible.JPG> and YAHOSHUAH MADE IT VERY CLEAR <http://www.letusreason.org/trin16.htm> that HE AS GOD was to be worshiped so much so that even the rocks would do so if men, women and children didn't <http://biblehub.com/luke/19-40.htm> so the wise will come to their senses and call upon YAHOSHUAH right now, while the foolish will perish in their sins; just as He says. GOD will change anyone who comes to Him, but not as long as they persist in such incredible delusions to their own destruction as to deny who He is. <https://www.facebook.com/notes/michael-swenson/evidence-of-god-our-creator/568134419932188> the ONE TRUE GOD http://biblehub.com/1_john/5-20.htm <https://www.facebook.com/notes/michael-swenson/god-part-2/830858016993159>

<https://www.facebook.com/notes/michael-swenson/teach-the-children-truth-teach-them-well/515687638510200>

<https://www.youtube.com/watch?v=zPqEEZa2Gis> - quantum mechanics and quantum theory; nor any other modern so called cosmological theory rationally explains what we plainly observe not only in our planet, in our solar system and galaxy but what we have observed to date about our universe.

<https://www.youtube.com/watch?v=VyOtlSnG71U> - none of the scientific theories to date rationally explain the existence of the universe and what we all can observe about it and yet we have all kinds of people WHO THOUGH THEY HAVE NO RATIONAL EXPLANATION WHATSOEVER for the universe (hence themselves), laugh, mock and sneer at anyone who even mentions GOD, YAHOSHUAH, our Eternal Creator and HOW they also can KNOW Him and learn from Him personally.

https://www.youtube.com/watch?v=3CgKmflnv_k -

<https://www.youtube.com/watch?v=mEH6tDLKcVU> -

I have looked at ALL KINDS of demonstrations regarding gases, liquids, solids, chemicals, metals, and even experiments conducted on the space station and NONE of them offer explanation for WHY virtually all matter is spinning, vibrating, traveling in wobbling, spiral waves throughout the universe. (And yet people without even realizing they DO NOT have even a rational explanation for their own existence; immediately start insulting me for saying I refuse to be equally baffled by all the b.s. they so religiously hold dear and, contrary to their insupportable worldviews, rather assert that the ONLY rational explanation for it all is in FACT the Biblical Account of Creation. **(thorough examination of the HOLY BIBLE is LONG OVERDUE by billions on earth today - <https://www.facebook.com/notes/michael-swenson/the-ineffably-awesome-holy-bible/621311364614493> and <https://www.facebook.com/notes/michael-swenson/understanding-the-holy-bible-part-1/611082142304082>)**

Now I know other believers might have problems with my dream of seeing all the mass of the universe in an enormous burning molten ball that was spun by our Creator and the various globules of superheated mass then went spinning off in all directions with many explosions following BUT the conservation of momentum and centripetal force and other common laws of motion are a far BETTER explanation than any so called scientific theories of today for WHY there is SO MUCH consistency of motion for virtually every object in our universe.

<https://www.youtube.com/watch?v=OqpPi8wNed8> - now SOUND, sonar levitation, begins to demonstrate how many objects can all be set in motion at once and in vibrations and other common principles, trajectories and vectors. THIS WOULD SUPPORT THE BIBLICAL ACCOUNT OF GOD SPOKE; not any of the rubbish, so-called text book explanations being taught in public schools all over the world today! (not any modern theories proposed to date by "scientists").

<https://www.youtube.com/watch?v=b8GgrUposII> and <https://www.facebook.com/notes/michael-swenson/brainwashing/643617432383886> and <https://www.facebook.com/notes/michael-swenson/the-planned-demoralization-of-america/632305113515118> and <https://www.facebook.com/notes/michael-swenson/why-care/814117475333880>

It is clear to me that LEAVING GOD OUT OF THE EQUATION RESULTS IN fiction, deception, fantasy, confusion, and eventually delusions, insanity and depravity.

<https://www.facebook.com/notes/michael-swenson/the-modern-evolutionary-paradigm-is-not-science-it-isnt-even-good-science-fictio/74746775332184>

<https://www.facebook.com/notes/michael-swenson/why-so-much-suffering/735857516493210>

<https://www.facebook.com/notes/michael-swenson/contrasts-and-conflicts/823997797679181>

I have read so many books, that it's difficult to refer to them just by title. There are books by Enoch, that seem to confirm what I saw of the origin of universe. IF the model I saw of HOW GOD could make a New Heavens and earth (visible universe) is the way He made this one, then the sphere of molten matter was sent spinning a great velocity at the outer surface; but then the matter close to the origin would not have been spinning nearly as rapidly. BASED on the dream, that would mean galaxies and stars and all matter in general AT THE OUTER REACHES of the universe would all be GENERALLY moving more rapidly; than galaxies closer to the universal origin (unless there were explosions of those particular galaxies or galaxies nearby). THESE MOTIONS are what I saw of galaxies, solar systems, etc. https://www.youtube.com/watch?v=0jHsq36_NTU&list=PL818CA79A85DFB977 and because even photons are flying off or exploding off rotating, spinning masses, they also travel as such spiraling, wobbling particles (earth is doing so on a larger scale, solar systems are doing so on a larger scale and

yes, even galaxies are doing so on a yet larger scale). Laws of motion affecting mass no matter how large or small to greater and lesser extents.

Now depending on how long the visible universe has actually existed, would depend on how long entropy, gravity, and all the other thought to be "natural" laws of energy and matter have worn down that initial velocity of the Beginning of WHY mass in the universe is spinning, rotating and revolving, (spiraling outwardly from the origin of the universe). And as such collisions, gravity and other reasons related to entropy would be having somewhat of an adversarial effect on the rate or velocity of universal expansion. (It is NOT accelerating) But based on what I SAW, objects, galaxies that are moving more rapidly would be closer to the outer portions of the visible universe (except for explosions) than galaxies that are closer together and not expanding as rapidly from each other (those would generally be closer to the universal origin; again with the exclusion of explosions and collisions).

Universal Time in the Space Time Continuum is the distance traveled from the Universal Origin and can be measured at any designated increment desired! Thus BASED on what I saw, objects in the universe can be mapped. I said that we are all moving through time and space in one or more of my notes and that is true based on this concept. I have been meditating on "time travel" for decades but more recently quite intensely and this is my present conclusion. I write this not by Divine Revelation; only by deep meditation, concentration, directed thought.

While we can physically intersect with any object in the Space Time Continuum (the universe) from NOW - forward, I cannot conceive of a technology that would enable travel into the past of a physical object. I know Spiritually remote viewing and "time travel" can be done; but I cannot think of any way a PHYSICAL object via any technology could travel from NOW to a location IN THE PAST. (Short of Divine Supernatural Intervention) Let me explain further. I have meditated DEEPLY on those who CLAIM warp speeds would enable time travel into the past and in my own opinion they are mistaken. VELOCITY alone will NEVER enable time travel into the past and let me explain why.

All objects in the Space Time Continuum, the universe are moving in a trajectory or vector based on the motion our Creator set all matter moving in, initially. Now collisions and explosions can change those vectors and trajectories but notwithstanding all bodies set in motion tend to stay in motion along the vector and trajectory initiated. As such, we can accurately predict and intersect any object in space accordingly; moving forward into the future from NOW. (Hence landings on the moon and mars, pictures of objects by our space probes etc.) BUT it is by extrapolation into the future and based on laws of motion and other physics that we are able to do this. I have thought LONG and HARD on this idea of warp speeds and what effect such velocities would have.

Everything in all Creation is Defined by our Creator, YAHOSHUAH; no one else. Thus the MAXIMUM VELOCITY of anyone or anything is the SPEED of HIS DIVINE THOUGHT. (GOD Alone determines limits within the universe; no one else; another reason why $e=mc^2$ is total rubbish). But let us imagine traveling EVEN FASTER than the speed of light in a vacuum squared! Let us imagine ourselves traveling faster than all mass and energy in the universe! (not spiritually traveling but PHYSICALLY moving our bodies, our mass from NOW; right HERE and right NOW to any other location in the universe. NO MATTER HOW FAST WE TRAVEL, we are traveling at NOW + that awesome velocity! In other words as we approach the maximum velocity of ALL mass and energy in the universe; all that happens is that those objects appear to be moving more slowly; or even almost fixed in Time and Space as we zip from location to location. NO MATTER HOW FAST WE DO IT! In other words, while it is possible to visit locations from NOW moving forward in time (Now PLUS any velocity you can imagine), NO MATTER HOW FAST THAT IS, we would NEVER be moving BACK in time.

Even if we moved so FAST we could physically visit every object in the universe it would still be NOW, and NOW PLUS any elapsed time (the distances all objects are moving from the origin of the universe or the distance they move in the NOW PLUS). NO MATTER HOW FAST an object moves it is always NOW PLUS; it never becomes NOW minus or travel into the past. As far as I can contemplate, travel into the past would require Supernatural Power (only accomplished by Divine Permission and Faith); not any technology available to physics or any other science. In other words, I KNOW mapping the universe, past, present and future is possible and physically traveling to any location in NOW (forward = NOW PLUS elapsed time; no matter how small the increment, to travel the desired distance in the universe) is technologically possible; but even though we can map the locations objects were in the past, physically traveling to their past location is purely fantasy; (time travel into the past is NOT technologically possible; at least not along the train of thought that incredible velocities (warp speeds) would enable it). As far as I can tell at present, it would only be possible by Divine Permission and by His Power. I know we can map the past; but even when I have tried to think of some kind of magnet or force (staging a device in a fixed location in the space time continuum) that could bring us from the present into that location in the past (like a beacon that somehow identifies that particular location in time and space); more specifically if quantum coupling can be achieved on a much larger scale and at greater distances than at present then one day we may be able to send information and perhaps even matter virtually instantaneously anywhere in the mapped universe. However, even this coupling seems to only be achieved in the NOW and the NOW future; I have yet to read or see evidence that such coupling is possible between NOW and the NOW past. http://en.wikipedia.org/wiki/Quantum_entanglement and <http://www.iflscience.com/physics/einsteins-spooky-action-distance-confirmed-new-quantum-experiment> and <http://www.pbs.org/wgbh/nova/physics/spooky-action-distance.html> At present, I come up only with spiritual solutions and only by the Permission of the Lord of Universe Himself. (So all those "Back to the Future" movies; while nice to dream about, are in my frank opinion; after decades of meditation; not feasible)

Again, I am not saying time travel into the past isn't possible, I am saying the only way I know how is spiritually, similar to a remote viewing concept, only actual spiritual travel (persons without mass - angels/spirits/ghosts).

I think PHYSICAL time travel into the past is one of those areas our Creator tells His Children that it is an area reserved for Him and only by His Permission.

<http://biblehub.com/acts/8-40.htm>

Philip and the Ethiopian ...39When they came up out of the water, the Spirit of the Lord snatched Philip away; and the eunuch no longer saw him, but went on his way rejoicing. 40But Philip found himself at Azotus, and as he passed through he kept preaching the gospel to all the cities until he came to Caesarea.

I'm not citing this passage to say God took Philip into the past, I am only citing it to show God can physically place people wherever (and whenever) He chooses.

I wrote this primarily as an insert that none of us should ever leave our Creator out of the equation, out of our observations and our interpretations of our observations; otherwise we can and often do MISinterpret them.

Understand I am not against a healthy imagination whatsoever; but also understand why I am so angry with all the crap these days being taught in the name of science. The HOLY BIBLE, Biblical Account of Creation, has withstood the test of time, all archaeological finds to date have supported the historicity of the text. The HOLY BIBLE FACTUALLY has ubiquitous support of all true science to date! While the evolutionary constructs DO NOT have ANY rational support or empirical evidence whatsoever!

<https://www.facebook.com/notes/michael-swenson/the-modern-evolutionary-paradigm-is-not-science-it-isnt-even-good-science-fictio/74746775332184> For those of us who KNOW our Creator, we know it is EXTREMELY evil, to tell little kids, there is no GOD, when there MOST DEFINITELY IS ONE and ANYONE can both KNOW and LEARN FROM HIM directly! <https://www.facebook.com/notes/michael-swenson/god-part-1/719346771477618> It is a vile thing in the extreme, to tell little kids they are nothing more than animals; instead of the Divine Creations that each and every one of them actually are! LYING TO CHILDREN; especially about matters of life, death and ever-lasting destinies for perverse purposes; intentionally sodomizing/perverting them, brainwashing them, is outright assault and abuse

of a horrendous magnitude; a magnitude that our Creator says is punishable by the ever-lasting flames of damnation, because such persons are leading innocent children AWAY FROM KNOWING AND COMMUNICATING DIRECTLY WITH OUR ETERNAL CREATOR; and should such persons die in their sins, it will not go well with their souls!

I HAVE DIED, and been resuscitated so I KNOW BEYOND ALL DOUBT, that YAHOSHUAH is the ONE TRUE GOD; having seen Him face to face! I experienced His Power and Virtues in ways that words fail to describe; but suffice it to say it transcends BY FAR all the power, mass and energy in the entire universe! To keep people from knowing Him is cruelty on a scale that GOD says will bring everlasting consequences upon all doing so; if they fail to repent of such monumental wickedness.

Teaching such obvious fiction in the name of science these days, not only causes massive suffering upon individuals, nations and the world at present but affects EVERLASTING destinies! It is terrible in such a severe way, that anger hardly describes the way I feel about it. Men and women are losing their livelihoods all because in a ONCE PROUD CHRISTIAN nation, suddenly antichrists have slithered in corrupting EVERYTHING, to the point sane and learned people are being fired because they refuse to teach this garbage to children! If our government still had persons like those who founded our nation, all those marching in their sodomite parades would be under arrest, all those murdering babies likewise, all those brainwashing children would be under arrest for multiple accounts of aggravated assault!

READ THOSE NOTES AND UNDERSTAND THAT LYING TO CHILDREN IN THIS WAY AND KEEPING THEM FROM KNOWING GOD ACTUALLY CAUSES SEVERE IGNORANCE, PERVERSITY AND WICKEDNESS SO ATROCIOUS THAT IT DESTROYS INDIVIDUALS, FAMILIES, NATIONS, AND IS LEADING TO THE DESTRUCTION OF OUR WORLD!

Everyone needs to KNOW GOD and learn from Him directly, then our interpretations of what we observe in Creation will not suddenly go against all accumulated knowledge to date (like claiming the expansion of the universe is accelerating or that the theory of relativity is anything but fantasy/fiction; along with much of modern theoretical physics).
