

The Modern Evolutionary Paradigm is NOT SCIENCE it isn't even good Science Fiction part 5 of 5

Catastrophic flood (NOT "evolution") is the rational explanation for what we observe in fossils, artifacts and history.

Some people still roll their eyes about the flood; when the evidence for it is so overwhelming it should be common knowledge by now.

Common ridiculous arguments about the size of Noah's Ark and number of species usually are given while ignoring all the evidence that sea worthy craft of that size and date have been found in the region as I cover in <https://www.facebook.com/notes/michael-swenson/no-more-brainwashing-no-more-lies-science-proves-who-god-is-part-1/518695411542756> and <https://www.facebook.com/notes/michael-swenson/bill-nyes-science-lies/599335080145455> but something I don't often hear skeptics acknowledge are certain facts like not that many kinds of animals would have needed to be on board even in a global flood.

<http://www.palaeontologyonline.com/articles/2014/fossil-focus-arthropod-plant-interactions/>

<http://www.nhnct.org/fauna/fauna.html>

<http://gianthamster.com/wp-content/uploads/2010/05/TypesOfAnimals.jpg>

<http://burgess-shale.rom.on.ca/en/science/burgess-shale/03-fossils.php>

As anyone can see a VERY SMALL percentage of all known species would have needed to be on the Ark to survive the global flood. Of which the vast majority of those could be preserved as seeds, or are so small as to be negligible. Furthermore consider the specific instructions:

Entering the Ark 1Then the LORD said to Noah, "Enter the ark, you and all your household, for you alone I have seen to be righteous before Me in this time. 2"You shall take with you of every clean animal **by sevens**, a male and his female; and of the animals that are not clean two, a male and his female; **3also of the birds of the sky, by sevens, male and female**, to keep offspring alive on the face of all the earth....

So a) we can see the vast majority of species on earth had no need to even be on the Ark and b) there is more than just single breeding pairs of many species of those that were on the Ark to account for present day populations.

Has anyone who argues against the Ark seriously studied procreation rates of the species that would have been on board?

<http://creation.com/where-are-all-the-people>

<http://creation.com/Flood-biogeography>

Population rates of species accurately account for a global bottleneck at the time of the historic global flood.

<https://www.youtube.com/watch?v=o0ghHia-M54> - this mathematician clearly counters deep time claims by evolutionists. (As populations would have long ago depleted the natural resources on earth and caused widespread extinction events). The "doubling time" of various species including our own corresponds directly with the date of the global flood.

But other scientists do argue against these notions by pointing out at least for humans that birth and death rates (as pertaining to population growth) fluctuate and are on the overall decline:

<https://www.youtube.com/watch?v=eA5BM7CE5-8>

Regardless of the views, the math and recorded history ACCURATELY places the "bottleneck" of humanity; from "mitochondrial" Adam and Eve to the generation of Noah, at the date of the flood; MOST DEFINITELY NOT "hundreds of thousands" or even "millions of years ago"; as yet ANOTHER FACT proving modern so called radiometric dating methods are RUBBISH and the popular evolutionary paradigm totally bunk!

<http://www.cs.unc.edu/~plaisted/ce/dating2.html>

<http://christiannews.net/2015/07/27/science-supports-genesis-geneticist-says-evidence-confirms-historical-adam-and-eve/> - even the most conservative population growth rates would have filled this world billions of times over, if mankind and other species have been around as long as evolutionists claim. RATHER population doubling rates correspond to the bottleneck mitochondrial Adam and Even exactly with the Biblical timeframe of the Creation Account followed by the Global Flood.

<http://www.blastthetrumpet.org/PublicLetters/AAAUpdatedPublicAlertsMattersofLifeandDeath/MoreUpdates041215/The%20religion%20of%20evolution%20versus%20the%20Science%20of%20Creation.pdf>

<http://www.blastthetrumpet.org/PublicLetters/AAAUpdatedPublicAlertsMattersofLifeandDeath/MoreUpdates031315/Evidence%20of%20GOD%20our%20Creator.pdf>

<http://answersinscience.org/RadiometricDating-Woolf.htm> - those claiming "deep time" geologic formation DESPITE the ubiquitous evidence that it is FALSE, point to radiometric dating as their "STRONGEST evidence" in support of their claims. Yet we can see their "strongest evidence" is NO EVIDENCE at all!!!!!!!

<http://creationtoday.org/radiometric-dating-is-it-accurate/> - it is the ASSUMPTIONS that cause the dates to be WRONG.

https://www.youtube.com/results?search_query=hovind+radiometric+dating+fallacies - you can look and decide for yourselves because people on both sides of the issue are outspoken.

<http://www.christiananswers.net/q-aig/aig-c007.html> - I, personally, have yet to be convinced of the age of the universe or the earth having spent THOUSANDS of hours of research to both sides of the argument. I AM FIRMLY CONVINCED AND KNOW BEYOND ALL DOUBT OUR ETERNAL CREATOR CAN DO ANYTHING HE CHOOSES TO, the exception being He has stated He does not lie. Instantaneous creation of the universe from His own existence is absolutely within His Power. <http://biblehub.com/matthew/19-26.htm> but the modern lunacy coming out of theoretical physics these days of something from nothing is contradictory to sound knowledge and even the foundational precepts of epistemology. (something from nothing immediately violates the Laws of Non-contradiction and Causality - proving anyone making such a statement is irrational, illogical, and quite possibly insane). I have yet to see any PROOF from all those debating the issues, even from the most famous of scientists, for a universe of "billions of years"; whereas the "young universe" primarily relies

on the authority of their understanding of the scriptures and some scientific observations; hotly debated by those claiming deep time, of course.

<https://www.google.com/webhp?sourceid=chrome-instant&ion=1&espv=2&ie=UTF-8#q=polonium%20halos%20unrefuted%20evidence> - I AM MOST DEFINITELY; BEYOND ALL DOUBT, A CREATIONIST, but I have yet to be persuaded, as to the WHEN it all began. And frankly, think it more of an intellectual exercise, and spiritual quest, than the current events that need IMMEDIATE SERIOUS ATTENTION WORLDWIDE.

We are facing FAR MORE URGENT MATTERS of global extinction events; on the verge of massive droughts, famines and wars, and yet billions of souls STILL do not know the ONE TRUE GOD; while people are debating the past in which no one on earth has firsthand knowledge of; unless our Creator showed them the TRUTH in that regard by Divine Revelation. GOD is ETERNAL, we might be able to trace recorded history back all the way to Adam and Eve, but the ages or epochs prior to His First Recorded Thought I cannot find in the HOLY BIBLE, just when was the FIRST THOUGHT of GOD? HE IS ETERNAL without Beginning and End!!!!!! As such, I do not see in the HOLY BIBLE anywhere where He tells us how long He has existed (other than ETERNALLY without Beginning or End; but I mean from our connotations of time, years how many have elapsed since His first thought of Creation) or for that matter how long the visible manifestation of all creation has existed. I DO see details of recorded history from Adam and Eve; especially, after the fall. And yet even in that history, I do not see prior to the MANIFESTATION of Adam and Eve, specific time frames for the Thoughts of GOD. I have discussed my views of the "days" of creation herein and in my citations already. <https://www.facebook.com/notes/michael-swenson/commentary-on-genesis-ch-1-part->

[1/625369024208727](https://www.facebook.com/notes/michael-swenson/1/625369024208727) I seek TRUTH and in that seeking I find PRIORITIES, and the PRIORITIES of our CREATOR are plainly stated!

The PRIMARY REASON I am addressing the brainwashing going on in public education is because it is leading mass millions AWAY from TRUTH, away from our CREATOR who is TRUTH and has become exceedingly evil and corrupt to the point where it MUST be addressed and the fallacies OVERWHELMINGLY EXPOSED such that we restore the proper TEACHER, GOD, to public education worldwide. These deceptions ARE INHERENTLY DESTRUCTIVE; not just to those espousing them, but to the WHOLE WORLD. (Just look at what has happened to our nation and the world since satanists took control of finance, media and education)

Their lies and deceptions intentionally perverting innocent children is causing widespread corruption, vices, and worse overt devil worship to invade our land which is leading to the destruction not just of our liberties and economies, but lives!

<https://www.facebook.com/notes/michael-swenson/observable-divine-judgments/732720553473573>

So I am addressing these perversions of science as the lies that they are BECAUSE they are PROVABLY destroying our nation, our heritage, our freedoms, and if not stopped leads to oppression, open wickedness, death and destruction. BUT it is NOT JUST present death and destruction that concerns me; it is EVERLASTING DESTINIES!!! I have been "beyond and back" myself. I KNOW, BEYOND ALL DOUBT, the Biblical Account of Existence after "death" is TRUE!!!!!!!!!! As such, I MUST do everything in my power to make certain every man, woman and child on earth KNOWS our CREATOR to their present and everlasting Joy!!!!!!!!!!

So to continue with how what we observe supports what is plainly recorded in the Holy Bible and does NOT support evolutionary fiction in any way: <http://creation.com/in-pelegs-days-the-earth-was-divided> - In all my study of God's Word I have found He says but one word and yet it refers to MULTIPLE ASPECTS of His Creation, physical, spiritual, general, specific; and so here in Genesis, I think based on the evidence of huge canyons and crustal displacement worldwide, that not only was the Global Flood of Noah's Day EPIC and massively cataclysmic, but also the separation of the continents in RECENT history as well! (I said it before and I'll say it again, I distinctly remember being shown a film strip in grade school that showed a tree in South America that had been split and the other half in Africa and it was shown us as absolute proof that the two continents were at one time joined together.) At the time I raised my hand because the teacher was saying that the separation of the two continents occurred "millions of years" ago, and so I asked if the presentation was stating that split tree was "millions of years old"? She said that was a good question and never answered it. My point is that they HAVE found marsupials fossilized in Egypt contrary to those who roll their eyes about the global flood being actual history. <http://karionghieroglyphs.blogspot.com/> and as previously discussed marsupials have been found elsewhere besides Australia (on virtually every continent) and present dating methods are wildly inaccurate. In addition, mankind obviously had knowledge of ocean going vessels and so it is not

necessarily a fact that all species migrating after the flood utilized land bridges, people and animals, seeds etc. could have traveled by sea; not to mention huge migrations of birds and insects; together with whatever they carried with them on or in their organisms. Also remember that it is far more likely that the vast majority of all fossils found would be what existed PRIOR to the flood; NOT after. (natural decomposition predominantly occurs apart from catastrophic events) AND with the BABEL account and the destruction of the tower, we have another explanation for what caused the global dispersion of both humans and animals. <http://www.gotquestions.org/Tower-of-Babel.html> and <http://www.creationdefense.org/34.htm> I believe that the evidence points not only to migration as a possible explanation but also a more recent and rapid continental separation not so much by plate tectonics as rather a change in land elevations due to the flood creating new emergences of "continents"; while what was previously above water, much still remains below. (The Flood Epic, corresponded to major geologic changes on the surface of the earth, like all the canyons; even deep sea canyons, opening up all over the world as the possible explanation for the receding waters). Regardless, of not finding fossils of every species YET; currently alive today, we do have evidence of recent historic discoveries that show ancient connections between even far away Australia to the Middle East.

http://www.bibliotecapleyades.net/esp_australia02.htm

<http://wakeup-world.com/2014/10/14/hieroglyphics-experts-declare-ancient-egyptian-carvings-in-australia-authentic/>

http://www.mysteriousaustralia.com/egyptians_australia_mainpage.html

And other artifacts link the Middle East even to the Americas:

<http://www.in-the-desert.com/giants.html>

https://www.google.com/search?q=golden+plates+found+in+utah&sa=X&rlz=1C1GIGM_enUS535US535&espv=2&biw=1066&bih=702&tbm=isch&tbo=u&source=univ&ei=1y1nVNGLPISoyQTR6IBo&ved=0CCcQsAQ

http://projectavalon.net/lang/en/klaus_dona_2_interview_transcript_en.html - understand that dating methods have been proven entirely inaccurate and/or incorrect because of false assumptions; but what the presentation clearly does prove is pre-flood and post-flood global civilization.

evidences of the global flood, arks (remnants of ships fitting dimensions and regional location of the Biblical Account), cities still beneath oceans and lakes, fossils gasping for air, clustered fossil graveyards, polystrate fossils, origins of human and language and species migration from earliest written records, geologic formations and more.

Recap on the Global Flood Noah's Ark and what followed:

1) Remnants of ships with evidence of animals have been found in the region indicated in the HOLY BIBLE - <http://www.facebook.com/notes/michael-swenson/no-more-brainwashing-no-more-lies-science-proves-who-god-is-part-1/518695411542756>

2) The geologic global flood layer(s) is a FACT:

<http://www.talkorigins.org/faqs/flood-myths.html>

4) STILL BURIED CITIES, CIVILIZATIONS, beneath oceans and lakes:

5) Origins of languages, human migration, procreation rates all as documented in the HOLY BIBLE and as OBSERVED points clearly to a historic global flood in which many "dinosaurs" and even real "giants" and ancient civilizations were destroyed.

https://www.google.com/webhp?sourceid=chrome-instant&rlz=1C1GIGM_enUS535US535&ion=1&espv=2&ie=UTF-8#q=giant%20human%20skeleton%20found%20underwater

Scientists have also discovered canyons even deep sea canyons and huge underground oceans that can EASILY account for "where did all the water go?"

<https://www.youtube.com/watch?v=iktmd7YnD8&list=PLb-aLQEd-g8bXMvN9NY5DxTS7aQPJsJhg>

I HAVE JUST SHOWN PLAINLY THAT THE UBIQUITOUS EVIDENCE, KNOWLEDGE OF MANKIND TO DATE, PLAINLY SUPPORTS THE GENESIS CREATION ACCOUNT AND EVEN THE MOST HOTLY DEBATED ASPECTS OF IT! At least, there is FAR MORE OBSERVABLE EVIDENCE in support of the Biblical Account of Creation, than for the nonsense being taught in public education these days! (namely, EVERYTHING WE OBSERVE SUPPORTS THE BIBLICAL ACCOUNT OF CREATION; conversely, NOTHING we observe supports the popular evolutionary paradigm being forced on mass millions in the name of so called science)!

<https://www.youtube.com/watch?v=HaQqa90e9KQ> - perhaps the most evolutionary of all things on earth is how much the darwinian theory keeps changing in a vain effort to try and be inclusive of all the evidence that has disproven darwin's theory many times over.

I address those who snicker about Eve being made from the rib of Adam (even though not so intelligent (compared to our ETERNAL CREATOR) and extremely fallible people have demonstrated once they have the hardware, living cells, and the software, DNA, they can bioengineer organs - <https://www.facebook.com/video.php?v=10152029229372917>; yet somehow, that is supposed to be difficult for the Eternal Creator who brought the entire universe into existence), and other objections in my notes: help people not to present themselves as <http://www.facebook.com/notes/michael-swenson/mentally-challenged/575010789244551> by teaching the Truth! <http://www.facebook.com/notes/michael-swenson/evidence-of-god-our-creator/568134419932188> and <http://www.facebook.com/notes/michael-swenson/the-sufferings-of-christ-a-treatise-on-repentance-and-forgiveness/556880667724230> and even though the HOLY BIBLE makes it clear that the tree of the knowledge of evil is a metaphor for the deceptive spirit known as satanil; AND even though serpents are also clearly metaphors of wicked people <http://biblehub.com/matthew/23-33.htm>, I will address the "talking serpent" issue a little more in depth.

I want to address this more particularly because these end times are bringing into manifestation open devil worshipers and so I call all those loyal to our Creator to arms; for the time is upon us when there will be open warfare all over the globe between all forms of satanism and those who are Faithful to our Eternal Creator, the ONE TRUE GOD.

In the Divine Revelations I saw, it was as if I were looking through spiritual x-ray glasses, that enabled me to look at souls, not just outward appearances. And I SAW that even though OUTWARDLY people look alike or similar, INWARDLY angels and devils are VERY different! The serpent seed is spread abroad all the earth and are declared adversaries of GOD ALMIGHTY and His Followers. Inwardly, spiritually, the souls of these devils ACTUALLY LOOK reptilian or serpentine! (Hence all the "alien" drama surrounding these terms). They DANCE serpentine, they have orgies, like serpents, they worship serpents, indiscriminate sex with whoever, whatever, are factually devil worshippers that trace back to the same activities that brought about the flood of Noah's day and the destruction of sodom and gomorrah. I think that there is evidence that in the past these reptilians or walking, talking serpent people actually PHYSICALLY resembled such and that over time, through genetic engineering and modification have infiltrated our world to OUTWARDLY look like other human beings, while INWARDLY are the spawn of devils! Understand that is what the Battle of Armageddon is REALLY about. It's not just about the delusional, greedy demoniacs who want to rule the world and enslave everyone else, but it is ultimately the violent conflict between the kingdom of the devil, hell on earth; clashing with the Kingdom of GOD, Heaven on earth. Kingdom against kingdom; which is why I am plainly calling every able bodied and willing saint to arms, because the days are now upon us when devils are seeking to do their evil deeds unrestrained and such evil deeds as should not be thought of let alone done.

<https://www.facebook.com/notes/michael-swenson/the-battle-of-armageddon/573387896073507> - like it or not there are only two ways to defeat delusional devils on earth who have cast off all restraint from doing exceedingly horrific wicked deeds. 1) Divine Intervention (flood the world, incinerate wicked cities, plagues, pestilences, storms, droughts, famines, etc.) and 2) RIGHTEOUS PEOPLE ARMED AGAINST THEM!

Understand I KNOW BEYOND ALL DOUBT the serpent seed, devils, nephilim, rephaim, are incarnate among us and HATE GOD and His People because we can see them and their deeds plainly and their REFUSAL to repent and honor the ONE TRUE GOD. Understand it is by direct Divine Revelation, that I know the inward souls of these persons, the unclean spirits resemble all kinds of grotesque images like vampires, zombies, ghouls, goblins, imps, but also like what many refer to as dragons and dinosaurs, serpents, reptilians and not the glorified images of such but rather like snakes with arms and legs that could walk and talk. Now how "far-fetched" is the idea that some creatures that are presently referred to as "dinosaurs" could possibly communicate and were at war with or preyed upon humanity to a greater or lesser extent? How "far-fetched" is it when birds with brains smaller than a walnut can talk like us and even understand us?

<https://www.facebook.com/video.php?v=538809232843183> - animals are FAR more intelligent than most people give them credit for.

<http://www.sciencedaily.com/releases/2005/02/050223140605.htm> - complex communications over thousands of miles and even identity awareness is one of the main reasons I am against sonar blasting technologies (I believe they are injuring the whales similar to destroying our own senses with over stimulation; like blinding light or loud blasts bursting ear drums or destroying sensitive nerves.)

https://www.google.com/webhp?sourceid=chrome-instant&rlz=1C1GIGM_enUS535US535&ion=1&espv=2&ie=UTF-8#q=deep%20sea%20sonar%20pulsing%20injuring%20whales Furthermore, identity awareness is a sign of extreme intelligence and whales should be off the

menu. <https://www.google.com/webhp?sourceid=chrome-instant&ion=1&espv=2&ie=UTF-8#q=how+do+dolphins+identify+themselves> There are many other reasons I am against the slaughter of dolphins and whales, not only the historic facts and current evidence as to their intelligence, socialization and intentional saving of human lives; but that our Creator advises against such in dietary counsel. <http://www.kosherquest.org/bookhtml/FISH.htm> In addition, I have had Divine Revelations that all Creation currently is designed to teach us good and bad behavior; to esteem the former and eschew the latter; even marine life imitates the struggle between good versus evil and the whales are definitely on the side of good; not so, the sharks.

So with brains as enormous as in some of the "dinosaurs", it is likely they communicated with each other, some probably hunted in packs, and even hunted humans <http://biblehub.com/genesis/3-15.htm> BEFORE YOU THINK OF LAUGHING AND MOCKING SUCH A STATEMENT CONSIDER OBSERVABLE FACTS EVEN TODAY!

"The attacks began almost immediately, the *Telegraph* reports. A relentless lizard repeatedly came at a Swedish woman, who smacked it with her diving weight belt. It chewed at the lead belt while other divers threw rocks at its head, she said, all the while eyeing her bare feet." - <http://www.smithsonianmag.com/science-nature/the-most-infamous-komodo-dragon-attacks-of-the-past-10-years-5831048/?no-ist> dragons/dinosaurs are STILL attacking people to this very day!

we don't call them dragons (except for komodo dragons) like they did in past history today we call them alligators, crocodiles, hippos, rhinos, pythons, anacondas and other serpents and other such names instead of sea dragons we call them sharks, whales, octopus, squid and others such names. BUT NEVERTHELESS many such creatures and more like giant jellyfish are deadly and objectively frightening if you were to see such up close and personal.

<http://www.brainjet.com/world/14153/19-pictures-that-prove-you-definitely-have-thalassophobia-fear-of-the-sea#slide/0>

(not ALL dragons/dinosaurs mind you would prowl and attack humans if they got the chance but many most certainly would have and did), but I wonder if in the plethora of fossils we are perhaps not being told the FULL discoveries that have been made; like the suppression of giants all over the world, and all

the humanoid oddities that have been found to date and made public, that perhaps they have found evidences of snakes with legs, and even reptilian like skulls near bones that didn't seem to belong; similar to all these misshapen humanoids - https://www.youtube.com/watch?v=1zz8_MxcnzY):

Which rises throughout history to modern wars, genocides, abortions, and the shedding of innocent blood globally. <https://www.ccel.org/bible/phillips/CPn27Revelation2.htm> the shedding of innocent blood portends doom for every wicked nation on earth condoning such practices.

Warnings against Foolishness ...16There are six things which the LORD hates, Yes, seven which are an abomination to Him: 17Haughty eyes, a lying tongue, And **hands that shed innocent blood**, 18A **heart that devises wicked plans**, Feet that run rapidly to evil,...

All nations are called to repent immediately of this great evil and return in true repentance to the ONE TRUE GOD, the LORD our GOD, our CREATOR and the SAVIOR of all who put their trust in HIM!!!!!!!

The written history of man shows that, contrary to the fictional constructs lying to mass millions by claiming that "dinosaurs" went extinct "millions of years ago", ones in recent history that have now gone extinct, became such with GOOD REASON; namely that they attacked and ate people! (like the ones that are still with us do):

My point here is that even though it is obvious the tree of the knowledge of evil and the talking serpent are clearly metaphors for the devil, wicked deceptive spirit, that it is NOT impossible that in the past there were serpents, dragons, dinosaurs with arms and legs that could have communicated and with the presence of evil spirits even mimicked human speech. It is certain that GOD has such capability. http://biblehub.com/2_peter/2-16.htm and <http://biblehub.com/matthew/19-26.htm> But I point this out, that while atheists and evolutionists believe in PROVEN IMPOSSIBILITIES with zeal and religious fervor; even what they ridicule creationists about is scientifically feasible; by what we plainly observe.

The serpent seed, over time, may have genetically altered their outward appearance; or the nephilim, rephaim and such humanoid hybrids may have even interbred into even more human-like features; but their deeds always manifest who they really are.

The entire content of the HOLY BIBLE is historically and scientifically accurate; not just concerning our past and present but has a 100% track record concerning prophecies, many thousands of them. It is time all those mocking and laughing really compared what they THINK they KNOW to the OBSERVABLE EVIDENCE.

<https://www.facebook.com/photo.php?fbid=1009149802463123&set=a.345811072130336.86973.100001043398117&type=1&theater> - creationists are not denying WHAT WE OBSERVE, but evolutionist take what we observe and then apply their fantasy that every living thing came from a single celled organism that "evolved" (i.e ADDED genetic information to itself countless trillions of times to become more complex organisms, mass millions of variations resulting in all species that have ever existed (even with their fantasies of hundreds of millions to billions of years, such fiction is NOT science); it isn't even science fiction, because it darwinian macro-evolution is simply not true, not even possible even though it is still forced on innocent children today.)

I reiterate READ AND LOOK AT EVERY CITATION if you do not KNOW our ETERNAL CREATOR personally as yet!!!!!!! Help people not to present themselves as <http://www.facebook.com/notes/michael-swenson/mentally-challenged/575010789244551> by teaching the Truth! <http://www.facebook.com/notes/michael-swenson/evidence-of-god-our-creator/568134419932188> and <http://www.facebook.com/notes/michael-swenson/the-sufferings-of-christ-a-treatise-on-repentance-and-forgiveness/556880667724230>

Far too many people today THINK the contents of the Holy Bible have no way to be "scientifically" tested in repeatable procedures BUT THAT IS A MOST UNTRUE ASSUMPTION! When you apply the so called "falsification principle" to the Holy Bible, one finds instead over and over again that what it says is fundamentally TRUE; and supported by what WE ACCURATELY OBSERVE (science) throughout!

Actually, observable evidence supporting the Biblical Account is so overwhelming, that people have to force themselves to ignore it in order to remain in other worldviews (especially in the madness of atheism and evolutionary imaginary constructs - <https://www.facebook.com/notes/michael-swenson/evolution-and-atheism-intertwined-religions-of-the-insane/492209810857983>).

<http://blogs.answersingenesis.org/blogs/ken-ham/2014/11/14/scientists-say-atheists-might-not-exist/>

It is this ubiquitous observation that our Creator made us all inherently "religious" (ever noticed how those who claim to be irreligious, zealously defend that claim?); ever notice how what the atheists believe (pure fantasy and delusions, requires more blind faith than all the major "religious" worldviews combined); thus even the so called "irreligious" have a set of beliefs (the modern evolutionary paradigm) that I have just plainly shown is entirely religious in nature; in that they substitute themselves and so called scientists as their deities arguing infallibility on topics ALREADY DISPROVEN MANY TIMES OVER; like macro evolution, abiogenesis and claiming the universe itself came from nothing, order from chaos, more complexity from less complexity, life from non-life, intelligence from ignorance, and all the other nonsense and rubbish these people believe because they cannot face the reality of our Eternal Creator. It is for those reasons and observations of humanity all over the world that I have written such statements regarding the impossibility of "separation of church and state".

<https://www.facebook.com/notes/michael-swenson/original-intent-of-the-religious-clause-of-the-first-amendment/553723191373311> and <https://www.facebook.com/notes/michael-swenson/some-quotes-and-thoughts-how-precious-is-freedom/519180841494213> AS WE CAN EASILY SEE HERE IN AMERICA, the removal of the HOLY BIBLE and TRUTH from public education is resulting in MASSIVE IGNORANCE, BRAINWASHING and DECEPTIONS! (even to the point of allowing the most vile of all worldviews to creep in and take hold, satanism and islam).

These rewards and consequences can be seen throughout history to this very day! If the people of any nation became wicked, they suffered the consequences; or if they turned to our Creator and followed His Instructions to Live By, they were blessed and prospered accordingly.

But the most self evident application of the Scriptures one can perform is by following the Instructions (just like one follows a recipe, they MUST follow it precisely to achieve the results); whereby those who do so will personally encounter our Creator. Very precise instructions are given on how to approach and KNOW the One True GOD, who will thereafter personally teach all who follow those steps to KNOWING Him and beginning to partake of His Glorious Kingdom HERE and NOW and FOREVER!!!

macro-evolutionists YOUR BELIEF IS RELIGIOUS! There is NOTHING scientific, NO empirical evidence to support evolution NOTHING! FACE IT! If evolution were true INTERMEDIARY SPECIES between the dogs (mammals) and whales would STILL BE ALIVE, likewise between APE-LIKE and HUMANS! and all the OTHER IMAGINATIONS horse-like and giraffes! but we have billions of each of the supposed results of evolution, and we still have species that SUPPOSEDLY are like their common ancestors with NOTHING in between them. The fossil record shows diversity of species many of which have become extinct; but the BILLIONS of intermediaries are NO WHERE TO BE FOUND! Contrary to evolution, the Biblical Account DOES HAVE OBSERVABLE EVIDENCE, DOES HAVE SCIENTIFIC SUPPORT THROUGHOUT! Creation is the REALITY in which we exist (hands down! no contest whatsoever between Biblical Creation and imaginary evolution!) - evolutionists instead of throwing up ad hominem and their usual nonsense need to consider the FACTS cited in these two

presentations <https://www.youtube.com/watch?v=GjvuwneORrE> and <https://www.youtube.com/watch?v=lktmmd7YnD8> You see, Creationists DO NOT DISMISS THE RECORDED HISTORY of mankind that tells us PLAINLY about Creation and is FACTUALLY supported by what we observe, but evolutionists SWEEP history aside COMPLETELY and assign their own fairy tales to what we observe. <https://www.facebook.com/notes/michael-swenson/the-modern-evolutionary-paradigm-is-not-science-it-isnt-even-good-science-fictio/74746775332184>

PART OF THAT MOST SIGNIFICANT HISTORY BEING IGNORED IS HOW THE CREATION ACCOUNT IS TOLD IN THE STARS AND EVEN HOW AND WHEN OUR CREATOR WOULD COME AND SAVE MANKIND!

<https://www.facebook.com/notes/michael-swenson/god-part-1/719346771477618> and <https://www.facebook.com/notes/michael-swenson/god-part-2/830858016993159>

GET THIS CLEAR; VERY, VERY CLEAR; LET IT SINK IN! SCIENCE OVERWHEMINGLY SUPPORTS THE BIBLICAL ACCOUNT; SCIENCE DOES NOT SUPPORT the entire evolutionary paradigm currently being

forced upon innocent children in coerced public indoctrination and reinforced through deceptive media programming on television; from cosmic evolution on through to biological macro evolution! LET ME REPHRASE THIS; SCIENCE SUPPORTS, CONFIRMS, PROVES AS VALID THE BIBLICAL ACCOUNT (IS WHAT WE ACTUALLY OBSERVE); SHOWING BEYOND ALL REASONABLE DOUBT, THAT IT IS MOST DEFINITELY THE CREATIONISTS THAT ARE THE ONES WHO BASE THEIR FINDINGS, CONCLUSIONS AND WORLDVIEW ON REASON AND SCIENCE; NOT ANY of those who cling to and espouse evil-u-shun!

<https://www.youtube.com/watch?v=t8H35GDLNuw&feature=share>

such nonsense being forced on unsuspecting children during their development years in coerced public indoctrination is leaving people today by the mass millions as having the appearance of being <https://www.facebook.com/notes/michael-swenson/mentally-challenged/575010789244551>

GRASP THIS CONCEPT AND NEVER FORGET IT!!!!!!! INFORMATION or INTELLIGENCE is ABSOLUTELY necessary for life!!!!!!! In other words, ALL LIFE is EVIDENCE of our ETERNAL, EVER-LIVING, CREATOR. I have listened to naturalists describe chemicals, elements as the "hardware" and DNA as the "software" (INFORMATION) necessary for and observed in ALL living organisms. TO HAVE BOTH HARDWARE AND SOFTWARE IN ANY SYSTEM REQUIRES AN ENGINEER; THAT ENGINEER has made HIMSELF CLEARLY KNOWN. He is the ONE TRUE GOD, OUR LIVING LORD JESUS CHRIST; WHO IS EVER PRESENT TO SAVE ALL WHO CALL UPON HIM!!!!!!! All persons OMITTING INFORMATION/INTELLIGENCE as ABSOLUTELY NECESSARY FOR LIFE are in <https://www.facebook.com/notes/michael-swenson/denial-of-reality/874509385961355>

People who have accurately studied world history know that at any given time; not just in the past but even today, you can pick up a modern manufactured artifact and hand it to billions of people all over the world and many will NOT know what it is or what it is for! The MANUFACTURER provides INSTRUCTIONS for its use, telling those who READ what it is exactly. That is the SAME error people are making (calling themselves scientists) when they look at Creation and IMAGINE what it means, rather than reading the Instructions from our Creator telling them so plainly!

DID THE STICKLEBACK FISHES PROVED EVOLUTION OR DID THEY PROVED DEVOLUTION?

Have you ever watched the movie titled Evolution vs God by Ray Comfort? In that movie, Ray asked a famous biologist, Paul Zachary "P.Z." Meyers, if he can provide an observable proof for evolution and he gave the Stickleback fishes as an example.

P.Z. Meyers claimed that in the past, a population of stickleback got trapped in freshwater during the ice age and they became an anatomically different stickleback, which somehow proves that animals do change which has the possibility to lead to evolution.

But what you haven't been told is that the freshwater stickleback actually degenerated instead of evolving. They lost some fins, spikes, and their bony armor plating. This is not evolution at all, even if you look at it in an optimistic way. This is losing what you already have instead of gaining more. This degeneration is due to genetic mutation which is just a fancy term for genetic degradation. Genetic codes are slowly getting destroyed due to copying errors and factors such as radiation and chemicals,

like a good blue-print for a house that is slowly getting destroyed. You're not going to end up with a better house, you will end up with a pile of rubble. Our genes have never been observed to improve or evolve or even just to compensate the damage. We will eventually lose so much genetic functions that we will die and go extinct. This had already been predicted by geneticists and they are studying how fast we are degenerating and how soon we will go extinct. Don't worry, it's going to take a long time because our population is huge. But take note that Diabetes, a product of genetic degradation, is already at almost 10% prevalence rate in American population and it is still increasing.

Genetic degradation was already predicted in the Bible when the Bible said "everything is withering" (that includes our gene pool). What we cannot observe is evolution. There is not a single shred of solid evidence for evolution. The missing links or ancestral forms of animals are still missing so the fossil record or geology strongly disagrees with Evolution, as what Charles Darwin admitted in his book titled Origin of Species. Due to the lack of ancestral forms, all animals appears to just pop into existence overnight without any evolutionary history according to the most famous and notorious atheist and evolutionary biologist, Richard Dawkins (The Blind Watchmaker, pp. 229-230). And to top it all, we are degenerating instead of evolving and there's nothing that could stop this degeneration because even humans aren't smart enough to fix our genes.

Now come to think of it, if the sticklebacks obviously degenerated, why did a famous biologist such as P.Z. Meyers hid the truth? Notice that he didn't even explain the changes in the fish because it would be obvious to all that it is a degenerative change. Now you can see for yourself how we are being lied to about the theory of Evolution. You didn't really evolved from a fish or from an ape. God created you in his image. We know we are created because DNA is information or instruction or a blue-print. Of course, a blue-print doesn't come from randomly scrambling the information on a paper. It can only come from the intelligence of a creator. And since our body is astonishingly and ingeniously designed that no human technology can match it, we can tell how smart our creator is.

A SCIENTIFIC DISSENT FROM DARWINISM

"We are skeptical of claims for the ability of random mutation and natural selection to account for the complexity of life. Careful examination of the evidence for Darwinian theory should be encouraged."

2014 Most Notable News: Evolutionary Icons Toppled...Whale Evolution...

The big-picture story of evolution tells that, over millions of years, natural processes produced millions of species from one or a few primitive progenitors. Did this really happen, or did God create separate distinct "kinds" of creatures about 6,000 years ago like Genesis 1 clearly describes?

Mutations are supposed to be evolution's engine since they generate variations from which nature then selects. Several different reports devastated this evolutionary icon. One report revealed the near-impossibility of mutations adding information to DNA, given the discovery that DNA encodes two layers of coding in the same space. Changing one letter affects both codes. Another study revealed that cells would begin removing useless gene sequences long before they had a chance to accumulate enough mutations to evolve into a new and useful gene. A third report concluded that the vast majority of mutations produce too tiny a difference for any natural process to see or select, causing slightly harmful mutations to accumulate far faster than any helpful ones could. All these reports were summarized in a review document released in 2014. [Bhattacharya, D. et al. 2013. Genome analysis of *Elysia chlorotica* egg DNA provides no evidence for horizontal gene transfer into the germ line of this Kleptoplastic Mollusc. *Molecular Biology and Evolution*. 30 (8): 1843-1852.] Any one of these results warns of disaster for evolution's supposed mutation engine, but together they completely shut it down.

Evolution's advocates will have to search for some new icons after taking a beating in 2014. They can no longer justify the claim that whale evolution, gene transfer between unrelated animals, or code-building mutations are scientifically valid.

“If it could be demonstrated that any complex organ existed which could not possibly have been formed by numerous, successive, slight modifications, my theory would absolutely break down.” – Charles Darwin, Origin of Species

"Charles Darwin said (paraphrase), 'If anyone could find anything that could not be had through a number of slight, successive, modifications, my theory would absolutely break down.' Well that condition has been met time and time again. Basically every gene, every protein fold. There is nothing of significance that we can show that can be had in a gradualist way. It's a mirage. None of it happens that way." - Doug Axe PhD - Nothing In Molecular Biology Is Gradual - video <https://vimeo.com/118128889>

...The team has named it Eocyathispongia qiania and note that it is made up of hundreds of thousands of cells and is formed in three tube-like chambers that are affixed to a common base, with cell structures that resemble those in modern sponges. "An international team of scientists has discovered the greatest absence of evolution ever reported—a type of deep-sea microorganism that appears not to have evolved over more than [supposedly] 2 billion years. But the researchers say that the organisms' lack of evolution actually supports Charles Darwin's theory of evolution. ...The scientists examined sulfur bacteria, microorganisms that are too small to see with the unaided eye, that are [supposedly] 1.8 billion years old and were preserved in rocks from Western Australia's coastal waters. Using cutting-edge technology, they found that the bacteria look the same as bacteria of the same region from [supposedly] 2.3 billion years ago—and that both sets of ancient bacteria are indistinguishable from modern sulfur bacteria found in mud off of the coast of Chile." It's amazing how little they have changed. "A few years ago, scientists uncovered the largest-ever fossil of spider: a female representative of a never-before-seen species that was buried in volcanic ash during the [supposedly] age of the dinosaurs.

...Now the researchers say they have found an adult male spider to match, but the discovery complicates the original interpretation of the species. The scientists have proposed a new genus — *Mongolarachne* — to describe the extinct creature.

...When researchers first found the female spider in northern China, they named it *Nephila jurassica*, putting it in the *Nephila* genus of golden silk orb-weavers, which still exist today and have been known to ensnare birds and bats in their huge wheel-shaped webs. ..."It was so much like the modern golden orb weaver," said Paul Selden, a paleontologist with the University of Kansas. Cyanobacteria are supposedly 3.5 billion years old, and they are basically identical to the blue-green algae that are living today. J. W. Schopf, who is One of world's prominent authorities on microfossils, claims that they haven't changed as they didn't need to change. "Evolution, an unending progression of new forms of life . . . survival of only the fittest . . . the old supplanted by the new. But prokaryotic cyanobacteria seem to have played the evolutionary game by a different set of rules: What once succeeded, continued to succeed . . . survival of the already fit . . . if it's not broken, don't fix it!" Creatures that are supposedly extinct are not extinct, they've just been given different names for example: On the left we have the supposedly extinct "Belemnobatis Sismondæ" a fossil carbon dated at [supposedly] "148 million" years old... and on the right we have a modern Shovelnose Ray "Rhinobatos productus" Same size. Same skeletal structure. Same body

shape. <http://www.halleethehomemaker.com/.../03/shovelray-640x170.png>

Same as trilobite and horseshoe crab. Which have suffered a loss.

"Horseshoe crabs are famous for having changed little in morphology since they first show up in the fossil record [supposedly] over 400 million years ago (!): they are thus called "living fossils". (In fact, the title of Richard Fortey's new book on living fossils is *Horseshoe Crabs and Velvet Worms*. Well, living species are remarkably similar in general external features to their long-dead (and extinct) relatives, but there are distinct differences, and of course we know nothing about the difference in their internal features, nor in the structure of the DNA of ancient species (go here for more criticisms of the notion that horseshoe crabs are living fossils). Nevertheless, there is surprising "stasis" of morphology over a very long period of time, and we're not sure why that is. ...What has happened, evolution-wise? Obviously, an entire set of limbs, the outer member of each biramous pair, has disappeared somewhere during the evolution of modern horseshoe crabs. We don't know exactly why this happened, or, if it was due to selection, what form of selection would favor such loss. But the authors do speculate about the genetic basis of the loss. ...Regardless of its cause, the difference in limb number between ancient and modern horseshoe crabs shows that what are regarded as "living fossils" may well be at one extreme of "changeability" among long-lived groups, but they have by no means remained completely unchanged." (Horseshoe crabs aren't really "living fossils")

<http://whyevolutionistrue.wordpress.com/.../horseshoe-crabs-.../>

"The basic arrangement of limbs in euarthropods consists of a uniramous head appendage followed by a series of biramous appendages. The body is divided into functional units or tagmata which are usually distinguished by further differentiation of the limbs. The living horseshoe crabs are remnants of a much larger diversity of aquatic chelicerates. The limbs of the anterior and posterior divisions of the body of living horseshoe crabs differ in the loss of the outer and inner ramus, respectively, of an ancestral biramous limb. Here we report a new fossil horseshoe crab from the mid-Silurian Lagerstätte in Herefordshire, United Kingdom (approximately 425 Myr B.P.), a site that has yielded a remarkably preserved assemblage of soft-bodied fossils. The limbs of the new form can be homologized with those of living *Limulus*, but retain an ancestral biramous morphology. Remarkably, however, the two limb branches originate separately, providing fossil evidence to suggest that repression or loss of gene expression might have given rise to the appendage morphology of *Limulus*. Both branches of the prosomal limbs of this new fossil are robust and segmented in contrast to their morphology in Cambrian arthropods, revealing that a true biramous limb was once present in chelicerates as well as in the mandibulates." "Cartilaginous fish (sharks and rays), boney fish (such as sturgeon, paddlefish, salmon, herring, flounder and bowfin) and jawless fish (hagfish and lamprey) have been found in the dinosaur layers and they look the same as modern forms.

"Modern-looking frogs and salamanders have been found in dinosaur dig sites.

"All of today's reptile groups have been found in the dinosaur layers and they look the same or similar to modern forms: Snakes (boa constrictor), lizards (ground lizards and gliding lizards), turtles (box turtles, soft-shelled turtles), and crocodylians (alligators, crocodiles and gavials)."

"Contrary to popular belief, modern types of birds have been found, including: parrots, owls, penguins, ducks, loons, albatross, cormorants, sandpipers, avocets, etc.

"At the dinosaur dig sites, scientists have found many unusual extinct mammal forms such as the multituberculates² but they have also found fossilized mammals that look like squirrels, possums, Tasmanian devils, hedgehogs, shrews, beavers, primates, and duck-billed platypus.

"In the dinosaur rock layers, we found fossils from every major plant division living today including: flowering plants, ginkgos, cone trees, moss, vascular mosses, cycads, and ferns. Fossil sequoias, magnolias, dogwoods, poplars and redwoods, lily pads, cycads, ferns, horsetails etc. have been found at the dinosaur digs."

<http://people.eku.edu/ritchisong/birdbiogeography1.htm>

"Conventional neo-Darwinian theory views organisms as infinitely sensitive and responsive to their environments, and considers them able to readily change size or shape when they adapt to selective pressures. Yet since 1863 it has been well known that Pleistocene animals and plants do not show much morphological change or speciation in response to the glacial–interglacial climate cycles. ...none of the Pleistocene pit samples is statistically distinct from the rest, indicating complete stasis from 35 ka to 9 ka. The sole exception was the Pit 13 sample of dire wolves (16 ka), which was significantly smaller than the rest, but this did not occur in response to climate change. ... None showed directional change; all were either static or showed a random walk. Thus, the data show that birds and mammals at Rancho La Brea show complete stasis and were unresponsive to the major climate change that occurred at 20 ka, consistent with other studies of Pleistocene animals and plants." (Size and shape stasis in late Pleistocene mammals and birds from Rancho La Brea during the Last Glacial–Interglacial cycle, Quaternary Science Reviews, Volume 56, 21 November 2012, Pages 1–10)

<http://authors.library.caltech.edu/36172/>

<http://www.sciencedirect.com/.../article/pii/S0277379112003289>

"Sure enough, there was complete stasis with no statistically significant size or shape changes through the entire interval, even during the peak glacial when cooler and drier conditions might predict that they

would have larger body size (Bergmann's Rule) or shorter limbs (Allen's Rule). Why stasis is so prevalent in the region is still not completely understood. It may be, as Bruce Lieberman and Niles Eldredge have suggested, that most species are much more broadly adapted than we realize, and can live in a wider variety of climatic settings without a noticeable difference in size or proportions than we used to think. Either way, it shoots down the oversold idea from Neo-Darwinism that organisms are delicately adapted to small environmental changes and adapt in response to every little blip in climate, as in the famous example of the Galapagos finches." (MYSTERIES OF THE TAR PITS by DONALD PROTHERO, Mar 27 2013) <http://www.skepticblog.org/.../27/mysteries-of-the-tar-pits/>

"After six years of work and publication, the conclusion is clear: none of the common Ice Age mammals and birds responded to any of the climate changes at La Brea in the last 35,000 years, even though the region went from dry chaparral to snowy pinon-juniper forests during the peak glacial 20,000 years ago, and then back to the modern chaparral again. ...

In four of the biggest climatic-vegetational events of the last 50 million years, the mammals and birds show no noticeable change in response to changing climates. No matter how many presentations I give where I show these data, no one (including myself) has a good explanation yet for such widespread stasis despite the obvious selective pressures of changing climate. ...

Such stasis, along with the examples documented from nearly all other Pleistocene mammals and birds, argues that organisms are not as responsive to environmental change as classical neo-Darwinian theory predicts." (Stasis in Pleistocene mammals and birds, Oct. 26, 2012)

http://www.arn.org/.../stasis_in_pleistocene_mammals_and_birds

"In four of the biggest climatic-vegetational events of the last [supposedly 50 million years, the mammals and birds show no noticeable change in response to changing climates. No matter how many presentations I give where I show these data, no one (including myself) has a good explanation yet for such widespread stasis despite the obvious selective pressures of changing climate. Rather than answers, we have more questions." (Donald Prothero)

The fossil record

<http://www.answersingenesis.org/articles/ee2/fossil-record>

"In the evolutionary story, environmental change, or the development of new environmental niches, drives evolution as organisms adapt to new environments. So they argue that living fossils are the creatures whose environment did not change. However, in the evolutionary view Earth has sustained multiple global catastrophes (but not a global flood; the Bible speaks about that!) and multiple ice ages. How could there be any place on earth that has remained static, including no change in predators? And living fossils occur across the spectrum of life; and they are very common.

Combine the observations of stasis and the scarcity of transitional fossils (there should be millions of them) and you have to ask, "Where is the fossil evidence for evolution?" (Don Batten, Evolutionists can't dodge 'Living Fossils')

Refuting Evolution

We all exist in the present and the facts all exist in the present. When one is trying to understand how the evidence came about—Where did the animals come from? How did the fossil layers form? and so on—what we are actually trying to do is to connect the past to the present. However, if we weren't

there in the past to observe the events, how can we know what happened so that we can explain the present? In light of many secularists, and sadly even Christians, celebrating "Evolution Weekend," I encourage you to share this video and the following article with others to show that God's Word is true: <https://answersingenesis.org/.../whats-the-best-proof-of-cre.../>

Frank Tipler (Professor of Mathematical Physics): "When I began my career as a cosmologist some twenty years ago, **I was a convinced atheist**. I never in my wildest dreams imagined that one day I would be writing a book purporting to show that the central claims of Judeo-Christian theology are in fact true, that these claims are straightforward deductions of the laws of physics as we now understand them. I have been forced into these conclusions by the inexorable logic of my own special branch of physics." GENETICS STARTS AT THE HAND OF A CHRISTIAN

DOES HE LOOK LIKE AN EVOLUTIONIST TO YOU?

The **history of genetics** started with the work of the Augustinian friar Gregor Johann Mendel. His work on pea plants, published in 1866, described what came to be known as Mendelian Inheritance. In the centuries before—and for several decades after—Mendel's work, a wide variety of theories of heredity proliferated.

Gregor Johann Mendel (20 July 1822)

The profound significance of Mendel's work was not recognized until the turn of the 20th century (more than three decades later) with the independent rediscovery of these laws. Erich von Tschermak, Hugo de Vries, Carl Correns, and William Jasper Spillman independently verified several of Mendel's experimental findings, ushering in the modern age of genetics.

Did I miss something here ,whenever an evolutionist asks what Christianity contributed to the world? Hello, this is what Christianity brought to the world amongst many other things. Evolution as an independent science has done nothing for mankind it has to steal from other sciences to demonstrate the good that they think it does. On it's own evolution has done nothing for humanity.

Extreme variation - However, they are both still canines.

"Officials with the American Kennel Club are trying to decide what to call the new breed of dog that is, somehow, a cross between the tiny Chihuahua and the very large Great Dane." (New dogbreed: Chidane-dane or Great Mexican?)

<http://ponderingsfrompluto.wordpress.com/.../new-dogbreed-ch.../>

The IGF1 gene plays a role in body size for dogs, in small dogs [like chihuahuas] the activity of the gene is suppressed, which inhibits growth.

Chihuahuas have "... a particular piece of DNA sitting in their sequence, next to the gene that codes for the hormone insulin-like growth factor 1 (IGF1). The IGF1 gene plays an important role in body size for dogs. ... The "small dog" variant suppresses the activity of the gene, inhibiting growth." (How DNA sequence divides chihuahua and great dane, The Guardian, 6 April 2007)

<http://www.guardian.co.uk/scien.../.../apr/06/uknews.sciencenews>

"The domestic dog exhibits greater diversity in body size than any other terrestrial vertebrate. We used

a strategy that exploits the breed structure of dogs to investigate the genetic basis of size. First, through a genome-wide scan, we identified a major quantitative trait locus (QTL) on chromosome 15 influencing size variation within a single breed. Second, we examined genetic variation in the 15-megabase interval surrounding the QTL in small and giant breeds and found marked evidence for a selective sweep spanning a single gene (IGF1), encoding insulin-like growth factor 1. A single IGF1 single-nucleotide polymorphism haplotype is common to all small breeds and nearly absent from giant breeds, suggesting that the same causal sequence variant is a major contributor to body size in all small dogs." (A single IGF1 allele is a major determinant of small size in dogs, April 2007)

<http://www.ncbi.nlm.nih.gov/pubmed/17412960>

"...the work of Sutter et al. [21], who used a genome-wide survey and association analysis in the Portuguese water dog to identify a QTL (quantitative trait locus) on chromosome 15 that sorted with body size. In particular, IGF1 (insulin-like growth factor 1) was suggested as a candidate gene for body size variation in domestic dogs and variation at 116 SNPs (single nucleotide polymorphisms) for 526 dogs clustered into two major groups, small and large breeds. Gray et al. [20] expanded upon these findings by using specific molecular markers (SNPs, microsatellite loci, insertion/deletion of a SINE element and nucleotide sequences) to characterize the segregation of domestic dogs into two major groups, small and large body size. As shown by their study, most small breeds of dog have two unique markers (SINE element insertion in intron 2 of the IGF1 gene and a SNP allele) not found in either wolves or large breeds." (Rodney L Honeycutt, Unraveling the mysteries of dog evolution, March 2010)

"The gene seems to work by setting how much of the growth factor dogs make. In Portuguese water dogs, smaller animals make less of the growth factor than big ones." (One gene between tiny dogs and giant ones?, Nature, 13 October 2006)

The chihuahua is evidence of the devastating affects of sin in God's creation!

Like other "pure breed" dogs, Chihuahuas suffer from problems that are specific to their breed, Some of those are:

- > A major problem that affects them is the Patella luxation [loose kneecaps], where the kneecap of the dogs rear legs slip out of the grooves.
- >They can suffer from Hypoglycemia [low blood sugar disease].
- > As Chihuahuas have a very small mouth there can be an overcrowding of the teeth.
- >They can suffer from Hydrocephalus [characterized by a build up of fluid around the brain].
- > Collapsing trachea could be a problem [the symptoms include coughing, shortness of breath, and exhaustion].
- > Molera, which is a soft spot on the top of their head [similar to a human baby's soft spot], but most Chihuahuas don't outgrow it, so care must be taken when petting or handling its head.
- > As Chihuahuas have large protruding eyes they may develop an eye problem known as dry eyes. And due to their large eyes and as they are closer to the ground, they are more prone to eye injuries than many other breeds.

The most extreme example of dog breeding is the Bulldog, which suffers many defects:

<http://www.bulldoginformation.com/bulldogs-hereditary-defec...>

"[S]ome modern breeding practices — including inbreeding and breeding for “extreme traits,” like the massive and short-faced head of the bulldog — are detrimental to the health and welfare of dogs."

...“There is little doubt that the anatomy of the English bulldog has considerable capacity to cause suffering,” Dr. Nicola Rooney and Dr. David Sargan concluded in one of the reports, “Pedigree Dog Breeding in the U.K.: A Major Welfare Concern?” “The breed is noted to have locomotion difficulties, breathing problems, an inability to mate or give birth without assistance. . . . Many would question whether the breed’s quality of life is so compromised that its breeding should be banned... [The Bulldog] is the most extreme example of genetic manipulation in the dog-breeding world that results in congenital and hereditary problems. . .bulldogs are significantly more likely than other dogs to suffer from a wide range of health issues, including ear and eye problems, skin infections, respiratory issues, immunological and neurological problems and locomotor challenges..” (Can the Bulldog Be Saved? Even though most (if not all) dog breeds are the result of artificial selection by humans, they show that a huge variation can be achieved within a species/kind.If the different dog breeds were found as fossils, we may have assumed they were different species. I wonder how many fossils which are classified into different species, are actually the same species/kind?

Dogs are a good example of deterioration within a population, and most breeds emerged within within the last two centuries; therefore, long periods of time are not required for extreme variation within kinds/species.

"Since the formation of breed clubs and official breed standards only happened in the 1800s, it's really surprising that we've found such a high degree of distinction between different breeds," said geneticist Leonid Kruglyak....." "Because the mixed dog breeds draw from a broader genetic pool, they are not prone to genetic illness that is predictable in many pure breed dogs." (Mixed Dog Breeds - Mixed Breed Dogs, doggieparadise.com)

"As expected, however, the level of genetic diversity within any single breed is considerably less than the species as a whole [10]. Most breeds demonstrate a pattern indicative of two population bottlenecks—domestication and breed formation [9],[11]. In support of that, Gray et al. modeled the demographic history of wild canid populations and domestic dog breeds and showed that domestication resulted in a 5% loss of nucleotide diversity, while breed formation caused a 35% loss" (Abigail L.

Shearin., Elaine A. Ostrander., Canine Morphology: Hunting for Genes and Tracking Mutations, Plosbiology, March 2, 2010)

<http://www.plosbiology.org/.../i.../10.1371/journal.pbio.1000310>

Short segments of genes from the gray wolf, were found in every sample of the dogs' genetic information. However, the nucleotides that make dogs look different were only found in a few areas of the DNA. Many if not all dog breeds are the result of artificial selection by humans, which has created gene bottlenecks through selectively breeding different dogs for different traits, which explains why only a few areas on the genome are responsible for how dogs look. Diversity is lost in this process [i.e. lots of those nucleotide puzzle pieces get eliminated]. "Domestic dogs exhibit tremendous phenotypic diversity, including a greater variation in body size than any other terrestrial mammal, [however only a small number of genes actually account for different phenotypes] ...we show that the remarkable diversity of form in the dog, in contrast to some other species studied to date, appears to have a simple genetic basis dominated by genes of major effect." (Boyko AR, Quignon P, Li L, Schoenebeck JJ, Degenhardt JD., A Simple Genetic Architecture Underlies Morphological Variation in Dogs, 2010)

Researchers "analyzed genetic signals of diversity and relatedness in a special region (the hypervariable region) of the mitochondrial genome of ancient dogs from the Americas. ...The researchers found four never-before-seen genetic signatures in the new samples, suggesting greater ancient dog diversity in the Americas than previously thought." "Rather than gaining new cognitive abilities that wolves never had, such as so-called "theory of mind" required to learn complex tasks by watching others perform, dogs may have undergone an evolutionary tradeoff: losing some of the ability to learn from their own kind, but gaining the ability to learn from humans. ...The jury is still out on whether dogs have lost a mental ability." (Who's (Socially) Smarter: The Dog or the Wolf?, 28 May 2013)

"It might be easy to forget that our dogs are the descendants of wolves, but not after seeing this! They're dogs, alright. You can see it in the tail wag." (She Was Approached By A Pack Of Ferocious Wolves. And What They Did To Her Is Unbelievable, February 24, 2015)

<http://boredomtherapy.com/woman-wolf-reunion/...>

"Today, the wolf is the largest of wild canids. But [supposedly] 8 million years ago there was a dog species that would have dwarfed any wolf. *Epiyon heydeni* was as large as a lion, and it sported jaws armed with massive premolar teeth and as powerful as those of a hyena, which could crush the bones of its prey almost effortlessly." (Giant dogs of the past, 22/10/2014)

<http://chasingsabretooths.wordpress.com/.../giant-dogs-of-th.../>

"Darwinian evolutionists propose that genetic variability is the result of random mutations that have accumulated gradually over millions of years. In contrast, creationists generally assume that God made all useful genetic information during the creation of the world. Both largely agree that groups such as the Family Canidae evolved from a common ancestor, and the rapid development of variety during the domestic dog breeding, was simply the result of shuffling preexisting genes. This common genetic theory

fails to explain the rapid production of the significant diversity when presented with the assertion that the wolf was a pure breed while in nature. A purebred organism is a genetic homozygote for the characteristics in question, and will therefore pass its traits to every offspring produced. In other words, wolves only give birth to wolf pups, but from them a tremendous genetic and morphologically diverse number of dogs have been isolated in a relatively short period of time."

"Arguably, the wolf did not already possess the variability we now find among the domestic dogs. Instead, diversity began to increase following domestication, which effectively removed the selective pressures that kept the animal true to form. It would appear that selection must persistently remove new alleles to keep a bloodline pure. That assertion is adequately demonstrated by the need to continuously remove variants from registered breeds in order to maintain desired traits."

Wolves, domestic dogs, dingoes, and coyotes can produce hybrids which can produce fertile offspring.

In fact, the Australian cattle dog breed was bred from a collie type dog, dalmatian and dingo.

<http://www.purina.com.au/ownin.../dog-breeds/Australian-Cattle>

This is why classification into "kinds" instead of "species" would be better.

" In dogs, the domestication bottleneck involved at least a 16-fold reduction in population size, a much more severe bottleneck than estimated previously. A sharp bottleneck in wolves occurred soon after their divergence from dogs, implying that the pool of diversity from which dogs arose was substantially larger than represented by modern wolf populations. We narrow the plausible range for the date of initial dog domestication to an interval spanning 11–16 thousand years ago," (Genome Sequencing Highlights the Dynamic Early History of Dogs, January 16, 2014)

<http://journals.plos.org/plosgenetics/article...>

"The origin of domestic dogs is poorly understood [1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15], with suggested evidence of dog-like features in fossils that predate the Last Glacial Maximum [6, 9, 10, 14 and 16] conflicting with genetic estimates of a more recent divergence between dogs and worldwide wolf populations [13, 15, 17, 18 and 19]. ...We use the directly dated ancient wolf genome to recalibrate the molecular timescale of wolves and dogs and find that the mutation rate is substantially slower than assumed by most previous studies," (Ancient Wolf Genome Reveals an Early Divergence of Domestic Dog Ancestors and Admixture into High-Latitude Breeds, June 2015)

<http://www.sciencedirect.com/.../article/pii/S0960982215004327>

"Its radiocarbon age of 35,000 years conflicted with the already published age of 15,000 years for dog divergence. How did the Current Biology study authors handle this? Easy—they simply dialed down the mutation rate to make it match their radiocarbon age [they re-calibrated it]. They wrote, "The mutation rate must be substantially slower in order to be compatible with the age of the Taimyr individual."¹ Of course, this language implies that their carbon age is "the age.

Instead of explaining why or how the details of several other teams' DNA sequence analysis algorithms may have missed the mark, these scientists simply fiddled with the mutation rate to match their carbon

date." (Dog Fossil Study Shows Wobbly Dating Practice, June 8, 2015)

PILTDOWN SKULL SUPPOSED MISSING LINK

The Piltdown Man was a paleoanthropological hoax in which fragments were presented as the fossilised remains of a previously unknown early human

This reconstruction, by Prof. (later Sir) Arthur Keith, was called *Homo piltdownensis* in reflection of its more human appearance. The find was also considered legitimate by Otto Schoetensack who had discovered the Heidelberg fossils just a few years earlier—he described it as being the best evidence for an ape-like ancestor of modern humans

The Piltdown hoax is perhaps the most famous paleoanthropological hoax ever perpetrated. It is prominent for two reasons: the attention paid to human evolution, and the length of time (more than 40 years) that elapsed from its discovery to its full exposure as a forgery.

observational, testable, repeatable science...that is what puts man on the moon and electronic gadgets in your hand. Darwinian evolution is not the same, it has very little empirical evidence and is propped up by wild extrapolations and a presuppositions.

There are no "beneficial " mutations- name one single, not "desirable", mutation...a mutation that adds true gain-of-function to the genome. Name one single medical practice or medication which desires "mutation". Mutations are overwhelmingly deleterious yet this is the primary mechanism of evolution.

Atheism

In the beginning, there was nothing. Not just nothing, actually, but nowhere as well. The universe wasn't just like an empty box, because basically there wasn't even a box which could have been empty. Time? There was no time so not just nothing and nowhere but no when either.... why are you looking at me like that? This is science!
O.K., just BOOM, everything we know to be the universe exploded into existence along with time and space, from nothing and...um...nowhere...and of course, no when.
What? I know it sounds like somebody created it but that isn't what happened because...Science!!!...Anyway in the first moments of this new existence was basically light, but not light like it says in the bible, that's ignorant superstitious light, this was scientific light....so anyway, let's skip ahead to where life formed by random chance....

It kinda makes sense until you say it out loud

This is one of the racist comments that Darwin made. One of the excuses atheists will try and use is that Darwin was referring to animals, not humans.

So my questions are: Where in Darwin's time can anyone show us where different animals were referred to as races? And can they also list which one's that were civilized and which ones were savage? Also remember that Darwin's book was named "Origin of Species" not Origin of races. And the second part of the title did refer to race making the theory racist and therefore was later removed to cover that up.

[Evolution is a Lie](#)

Evolution is based in racism...

I posted this before but I am posting it again because no atheist responded to this. And the reason is because the pic makes a point that cannot be refuted. So there are 3 question to ask:

- 1) Can the atheist show where in Darwin's time that the word "race" was commonly used to refer to different types of animals?
- 2) Can you name the types of animals consider civilized?
- 3) Can you name the types of animals that were savage?

Not being able to answer these questions shows that atheist are willing to openly lie for evolution and cover up it's real goals which is to exalt one race over another. And to cover up that Darwin and all his friends who helped him with evolution were nothing more than KKK thinking people who would do anything to promote the white above all other races,

Don't believe me? Every scientifically used human evolution chart always ends in white man as the final product and the highest evolved race of humans. Exactly how was this determined?

Could it be that every person involved inventing this idea were white as well? More silence will only speak more volumes about the truth of all this. ~ Issac

GENETIC EXPERT SAYS GENETICS POINT TO GOD!

No one knows better than Dr. Francis Collins how easy it might be for scientists to play God. As the director of the National Human Genome Research Institute since 1993 — what some call the most prestigious job in science — Collins has led the effort to decode human DNA, along the way developing a revolutionary method of screening genes for disease. Yet according to this widely respected scientist, the newfound power to "read our own instruction book" is no obstacle to faith in the existence of God.

If God is who God claims to be, and who I believe he is, then he is not explainable in natural terms. He is outside the natural world; outside of space and time. So if God chose to intervene from time to time in the natural world by allowing the occurrence of miraculous events, I don't see why that is an illogical

Dr. Francis Collins who heads up the genetic foundation is a born-again Christian wrote a book called the language of God found in genetics. There's no reason no possible reason on earth not to believe in in Jesus, even bart Erhman believes in the historical Jesus. Why are college students still walking around thinking Jesus is a myth?

(kind of like calling "dragons", "dinosaurs" in order to suppress actual history.) GOD has told us for millenniums that what is VISIBLE is presented by what is NOT! http://biblehub.com/2_corinthians/4-18.htm BY HIM! <http://biblehub.com/colossians/1-17.htm> by His Creative Power, Spoken Word (vibrations , frequencies, waves) to bring forth from His Invisible Eternal Self, Visible Creation. http://biblehub.com/1_timothy/1-17.htm and <https://www.biblegateway.com/passage/?search=John+1> and <https://www.facebook.com/./the-religion.../729829070429388> and <https://www.facebook.com/notes/michael-swenson/understanding-the-holy-bible-part-1/611082142304082> when the atom was first discovered it was considered the "smallest building block of matter" but when protons, neutrons and electrons came along, we started to see the rabbit holes of modern physics go on virtually endlessly. To the point where quarks have been discovered and smaller particles still. At some point scientists are trying to define when and how is energy transformed into mass, (HOW DOES GOD MAKE the INVISIBLE, VISIBLE) I encourage them to go on in their search; but what I object to is calling any of these discoveries "natural" when in fact they are both supernatural in origin and essence. I object to those who call these mechanisms "explained" simply because they apply DIVINE attributes to anything observed; especially particles so small it takes imagination to even begin to conceive of them, "discover" them, and define them according to their own presuppositions that discovering tiny vibrations, waves, and particles explains Creation apart from our Creator; when it absolutely does NOT. NO MATTER HOW MANY SMALLER AND SMALLER PARTICLES MAY YET BE FOUND, BOTH ENERGY AND MASS ULTIMATELY EXISTS BY DIVINE PROVIDENCE; OUR ETERNAL CREATOR YAHOSHUAH, commonly referred to in English as our LORD and SAVIOR, JESUS the CHRIST. One thing far too many "scientists" seem unwilling to admit, and that is observable reality TAKES DIVINE INTELLIGENCE NOT ONLY TO CREATE IT BUT TO SUSTAIN AND PRESENT IT MOMENT BY MOMENT! Max Planck comprehended it correctly; why are others trying so hard to present themselves as obtuse to the OBVIOUS. "All matter originates and exists only by virtue of a force which brings the particle of an atom to vibration and holds this most minute solar system of the atom together.

We must assume behind this force the Existence of a Conscious and Intelligent Mind. This Mind is the matrix of all matter."

[The Space Time Continuum](#)

The Fourth Dimension - Mapping Time and Space

Origin/Beginning Point 0 and with respect to time and space 0,0,0,0 exists within the center of the first spinning tetrahedron/sphere it occupies

Time is non-linear because it emanates in all directions from the origin

The origin of Time and Space is the origin of all matter in the Universe. All matter is constantly moving through Time and Space/The 4th Dimension. If we want to discuss what exists in the 3rd instance of time we would be discussing everthing within the green sphere and so on with each passing increment of time more space is defined. So when the Creator brought everything into existence Time and Space had its origin at that instance. All matter was a superheated enormous mass in the Beginning and was set in motion spinning by the Creator. As He spun the superheated mass; molten liquids gases and solids flung outwardly from the origin into the 4th Dimension/Time and Space. So my friends not only is Space/Time Travel possible but everything in the universe is doing just that constantly. The Creator alone occupies all of the 4th dimension which is his House at once. So He experiences all of it past, present and future at once and tells us of the so called future in the form of prophecy. This is what the meaning is of the scripture Ecclesiastes 3:15 and is why the Holy bible always has been and always will be inerrant in prophecy.

One point = 1st dimension Two points/line = 2nd dimension Three points/triangle = 3rd dimension Four points/Tetrahedron = 4th dimension; specifically a spinning tetrahedron that occupies a sphere with radian equal to a instance of time. Interlocking spinning tetrahedrons map all Time and Space thusly.

This will be my last post this evening. Polystrate tree fossils. Evolutionists contend that these trees died standing up, and remained upright and unrotted for a couple of million years until the sedimentation slowly covered the trunk.

Yeah, right..

Polystrate fossils have been found in coal mines where the tree trunk was UPSIDE DOWN, and spanned many different layers of coal. Some were only partially coalified. It would be impossible for trees to remain standing and unrotted for several million years. Keep in mind that evolutionist try to argue that the many rock layers indicate millions of years of time.

These pictures destroy that idea.

DID THE DONKEY SPEAK?

Due to Balaam's renowned preeminence, we would expect that some mention of Balaam would be found in some ancient nation's records.

Corroborative evidence. Historical evidence

The Talmud tells us that earlier Balaam had been an adviser to the pharaoh who enslaved the Children of Israel and sought to destroy their male children.

The third century BCE Greco-Egyptian historian, Manetho, also mentions that it was the prophet-adviser to the pharaoh who instigated the enslavement of the Jewish People.

The Midrashic sources also place him in Aram], modern-day Syria, and in the Aegean isles, and in Cush, modern-day Ethiopia . Balaam was an itinerant prophet with a far-reaching reputation..

He is identified as a false prophet by Peter and Jude who believe it. (2 Peter 2:15-16; Jude 1:11).

John the apostle relates the sin of Balaam as fornication to the growth of the church mingles with the world. He believed it. Rev 2-3

God tell us the donkey spoke and Jesus believed it, that settles it.

Balaam was the grandson of Laban the Aramean. .The patriarch Jacob lived in Aram and married the two daughters of Laban. Jacob and his wives were returning to the land of Canaan, they stopped in the land of Moab at Succoth. Archaeologists believe that the Jordanian hill called Tel Deir Alla is the site of Biblical Succoth. And, it was here in Tel Deir Alla that evidence of Balaam was found.

The angel opened her mouth and spoke through her. This is reiterated by Peter, who identifies the donkey as "a beast without speech" and who "spoke with a man's voice" (2 Peter 2:16).

Professor Henk J. Franken found a fragment, written on it in bold letters the words: "the prophet, Balaam son of Beor."

DID THE DONKEY SPEAK?

The discovery of the Book of Balaam in Jordan

In an unprecedented discovery, an ancient text found at Deir Alla, Jordan, in 1967 tells about the activities of a prophet named Balaam. The text makes it clear that it is. These lines in the first four lines he is referred to as "Balaam son of Beor," exactly as in the Bible. This represents the first Old Testament prophet to be dug up in Bible lands — not his tomb or his skeleton, but a text about him. The lower part of the text shows signs of wear, indicating that it had been on the wall for some time prior to the earthquake." (Balaam Son of Beor: Bible and Science, Bryant G. Wood, p114, 1996 AD)

Psa 85:11
Truth shall spring out of the earth; and righteousness shall look down from heaven.

[Luke Lefebvre](#) added [3 new photos](#).

I love doing the hard stuff. Doing the hard stuff only sharpens me better. Balaam false prophet and the donkey story. Was there a historical Balaam and did the donkey speak. There's no reason not to believe it. There's external evidence to Egypt enslaving the Jews and that false prophet partaking in that outside the Bible. We found his name on it and his father was Beor just as described in the Bible. We have the city where he was born. God spoke through the bush God spoke through the cloud and got used an angel to speak through the donkey the burning bush and the Fallen Angel to speak through the serpent. Men died for what is recorded in the Bible like Peter and the apostles.

Nine rings **JOSEPH RINGS**

Exhibit D: The "Yakov" Joseph's royal seal was discovered at Tell el-Daba, the site of the ancient Hyksos capital at Avaris. This is also the location of Rameses, the place where the Israelites settled (Gn 47:11) and where they departed from (Ex 12:37). In the 13th century BC, long after the Israelites left Egypt. The Austrian team excavating the site found nine scarabs (beetle-shaped amulets) bearing the name of a Hyksos called Jacob-Her dating to ca. 1700 BC. The naked archaeologist, of course, says that this is Joseph's father Jacob. He further contends that these are "seals worn by Joseph's court officials." the scarabs are connected to the high official Joseph. (Bietak 1997: 115).

Joseph's name in Hebrew was Yosef ben Yakob - Joseph son of Jacob

JOSEPH & THE 9 ROYAL RINGS

Jewish historian Josephus says that, at the time of Joseph, there was a Semitic people called "Yakow" ruling Egypt's Nile Delta. He identifies the Yakow with the Israelites. For over four decades, Professor Manfred Bietaf has been digging at Avaris. It is there that he found a statue that may very well be linked to Joseph. **The question is, has Professor Bietaf found any royal signet rings? And the answer is, yes! What is inscribed on them: "Yak-H!"**

I mean, after all, this is the only time that the name of the Semitic patriarch is inscribed on an Egyptian royal scarab.

Professor Bietaf has found nine rings with Jacob's name on them. Here we have perfect synchronicity between the biblical text and Egyptian archaeology. Joseph's royal ring has been found in a 3700 year old archaeological context!

Yesef ben Yakob - Joseph, son of Jacob.

Seal with naked man and woman

In 1922 E. A. Spence of the University Museum of Pennsylvania discovered a seal near the bottom of the Tepe Gawra mound levels from Mesopotamia. He estimated that the seal came from about 3000 B.C.

It shows a naked man and a naked woman, both bent over as if they were oppressed or abject. Behind them, faintly visible, is a temple (see drawing in upper left of image).

The seal is small, only about one inch in diameter, engraved on stone, and now held in the University

[Then] the gods [made] the sky come in a storm of [rain, with darkness in the western region and the sky beclouded without [stop, louder] than [the sound of] the subjects, stronger than ... howling(?)] on the hills more than the sound of the cavern in Elephantine. Then every house and every habitation they reached [perished and those in them died, their corpses] floating on the water like skiffs of papyrus, ... for a period of up to [...] days, while no torch could give light over the Two Lands... Then His Majesty said: 'How these (events) surpass the power of the great god and the wills of the divinities!'

AN HONEST CREATIONIST

Dr. Kurt Patrick Wise is an [American young earth creationist](#) who serves as the Director of Creation Research Center at [Truett-McConnell College](#). He has a PhD in [geology](#) from [Harvard University](#). He's known for his writings in support for creationism as well as his work for the [Creation Museum](#). In 1989, Wise earned a Ph.D. in Geology from [Harvard University](#). In addition, he has an M.A. in [Geology](#) from Harvard University and a B.A. Geology from the [University of Chicago](#). In 1998, Robert Schaedewald described Wise as influential on "modern creationism as it is practiced at its higher levels."

Kurt Wise, PhD in Geology from Harvard

Richard Dawkins says: *Wise stands out among young earth creationists not only for his impeccable education, but because he displays a modicum of scientific honesty and integrity. I have seen a published letter in which he comments on alleged "human bones" in Carboniferous coal deposits. If authenticated as human, these "bones" would blow the theory of evolution out of the water.*

SAYS RICHARD DAWKINS

[Luke Lefebvre Human evolution is a FAIRY TALE STORY! p](#)

So does correcting creationists bother Dr. Kurt wise? Not at all. He has a grounded faith based on God's word and science is obviously and has obviously been wrong many times before. He corrects the so-called allegations that a human bone was found in coal which is absolutely impossible. He corrects the Christian and yet his faith is as solid as the foundation Jesus build his church upon. Richard Dawkins calls him an honest creationists. That's Kurt Patrick Wise Harvard graduate in geology. A solid example of a solid faith. The Bible says it don't matter because if it were possible it would even deceive the very elect. You will never destroy in the salvation of the elect, never.

MAN BONES IN A DINO LAYER!

Skeletons of ten perfectly modern humans have been excavated from fifty eight feet down in the Dakota Sandstone, over an area spanning about 50 by 100 feet. This formation is a member of the Lower Cretaceous, supposedly 140 million years old. It is known for its dinosaurs and is the same formation found at Dinosaur National Monument. "Articulated" skeletons obviously indicate rapid burial. 10 men, woman and children, were buried rapidly by some catastrophe, like a flood. No tools have been found and there are no crushed bones which would be expected if the mine caved in. Was this a mass grave by natives? This cannot be true because the living would have to dig a grave 50-100 feet deep through extremely hard sandstone layers

YOU SHOULD NOT FIND HUMAN BONES IN THAT LAYER.

Dr. Don Patton holding a human femur which has been replaced with malachite, found at the site.

NO COLLAGEN MOST ARE MALACHITE? IT'S TOPSY TURVY FOSSIL?

Falsification
Richard Dawkins
Oxford

"It should be very surprising, for example, to find fossil humans appearing in the record before mammals are supposed to have evolved! If a single, well verified mammal skull were to turn up in 500 million year old rocks, our whole modern theory of evolution would be utterly destroyed."

The Blind Watchmaker
1986, p.222

**Nuclear Physicist Declares:
"Science Will Never Contradict
The Bible"**

"The final arbiter of any theory must be based on the strength of its description of physical reality," he said. "It is in this respect that the theory of evolution fails dismally."

Dr. Brandon van der Ventel

An accomplished nuclear physicist has recently expressed outspoken support for the Genesis creation account, arguing that the evolutionary worldview "fails dismally" in its description of scientific reality.
