

Since Dinosaurs and Humans co-existed...

What are the Implications?

According to leading evolutionists.

Evolutionary theory obliterated!

Richard Dawkins, Oxford "alleged human bones in the Carboniferous coal deposits. If authenticated as human, these bones would **blow the theory of evolution out of the water.**" (Free Inquiry, V.21, No.4, 10/11/2001)

Richard Dawkins

Richard Dawkins, Oxford "...there are certain things about the fossil record that any evolutionist should expect to be true. We should be very surprised, for example, to find fossil humans appearing in the record before mammals are supposed to have evolved! If a single, well verified mammal skull were to turn up in 500 million year old rocks, our **whole modern theory of evolution would be utterly destroyed.**

Incidentally, this is a sufficient answer to the canard, put about by creationist and their journalistic fellow travelers, that the whole theory of evolution is an 'unfalsifiable' tautology. Ironically, it is also the reason why creationist are so keen on the fake human footprints, which were carved during the depression to fool tourist, in the dinosaur beds of Texas," (The Blind Watchmaker, 1986, p.225)

Steven M. Stanley, Johns Hopkins University, "There is an infinite variety of ways in which, since 1859, the general concept of evolution might have been **demolished.** Consider the fossil record--a little known resource in Darwin's day. The unequivocal discovery of a fossil population of horses in Precambrian rocks **would disprove evolution.** More generally, any topsy-turvy sequence of fossils would force us to rethink our theory, yet not a single one has come to light. As Darwin recognized, a single geographic inconsistency would have nearly the same **power of destruction.**" (The New Evolutionary Timetable, 1981, p.171)

Steven Stanley

NOVA TV Special, God, Darwin And The Dinosaurs, "...dinosaur footprints, side by side with humans. Finding them would counter evidence that humans evolved long after the dinosaurs became extinct and back up...[the] claim that **all species, including man, were created at one time.**"

Ernst Mayr

Ernst Mayr, Harvard, "Creationists have stated that humans and dinosaurs were contemporaries in time...Were this momentous statement true the names of its discoverers would thunder down the corridors of time as individuals who **made one of the most outstanding discoveries of the twentieth century.**" (Gish-Mayr Debate, Evansville, Indiana.)

Niles Eldridge, American Museum of Natural History., "We have been looking at the fossil record as a general test of the notion that life has evolved: to **falsify** that general idea, we would have to show that forms of life we considered **more advanced appear earlier** than the simpler forms." (Monkey Business, p.46, 1982)

Louis Jacobs, Southern Methodist University, Former President of the Society of Vertebrate Paleontology, "co-occurrence of men and dinosaurs. Such an association would **dispel an Earth with vast antiquity.** The entire history of creation, including the day of rest, could be accommodated in the seven biblical days of the Genesis myth. **Evolution would be vanquished.**" (In Quest of the African Dinosaur, p.261)
